PREFACE

“SUBLORD” SPEAKS!!

Yes. In our K.P. System, the SUBLORD always speaks. The cuspal sublords decide the fate of the Native in a chart. The starlord indicates the significators of the particular Bhava, and the SUBLORD, ie. Planetary sublords indicates whether it is beneficial or not. In timing of the events this sublord, along with CUSPAL Sublord gives clue to the Astrologer, for a correct future prediction

This book, under the caption SUBLORD Speaks, was written by Mr. K.M. Subramaniam (Late) of Perambur and a senior most K.P. Scholar in the Magazine K.P. and Astrology., As Closely related to me, he often use to discuss the Nature of SUBLORDS with me before writing each article. In my research, not only planetary sublord, but, the cuspal sublords also plays a major role in predictive portion of K.P. system in the absence of Planets in their stars. Without SUBLORDS there is no K.P. system.

I strongly recommend this book to all practising Astrologers. K.P. Students and research scholars to master their knowledge in our K.P. system. I thank Mr. K. Subramaniam, Krishman & Co, for bringing out this publication in great memory of Shri. K.M.S. and the blessings of (late) shri. K.M. Subramaniam will always be there to him.

With great respects to our Great Guruji Shri. K.S.K., I end my words.

SUB - LORD SPEAKS

Krishnamurthi Padhdhathi tells that the result of a planet is obtained through the status of the constellation lord. Suppose there are two planets in the same constellation, then there can be some modification in obtaining the result. So, to assess the correct result, Sri KSK had divided the constellation in a manner and called it a sub, in the proportion in which they are allotted the total number of years in Vimshottari Dasa System.

The longitude of each constellation is $13^{\circ}-20'$, equal to 800 minutes. Therefore, in every constellation of 800 minutes, each planet will have an area equal to the number of years allotted to each in the DASA multiplied by $6\frac{2}{3}$ minutes. Therefore Sun's sub extends to 40 minutes, Mars and Ketu extend for $46\frac{2}{3}$ minutes, Moon extends for $1^{\circ}-6\frac{2}{3}'$ minutes, Moon extends for $1^{\circ}-6\frac{2}{3}'$, Rahu extends for exactly 2° , Jupiter has an area of $1^{\circ}-46-40''$, Mercury $1^{\circ}-53\frac{1}{3}'$ Saturn $2^{\circ}-6\frac{2}{3}'$. and Venus $2^{\circ}-13'-20''$, Whatever is the constellation.

And also, Sri KSK emphasised that what matter actually one will enjoy or experience, depends on the lord of the constellation; but these can be felt with deviation in the result, in terms of the signification of the lord of the sub tenented by the concerned planet.

It is also imperative to note, that it is the SUB lord which decides whether the results as obtained through the constellation lord, is favourable or unfavourable and any departure from it, altogether.

The planet is the source, the house occupied or owned, shows the nature of the results to be experienced.

“According to the postulates of Krishnamurthi Padhdhathi, as KSK's son Sri Ganapathy put it, that when a planet lies in a certain

constellation, it is modified by the planet that presides over the constellation. The planet is not only coloured by the constellation lord but also by the sub division of the constellation, according to the signification of the sub-lord by house-lordship and occupation; and so the sub division has an important role in modifying and even deviating in the matter, as obtained by the star lord."At many times it had been noticed that planets in a constellation indicating a certain matter, do not necessarily repeat the indicated results, and on the contrary they bring about a quite different matter, in terms of the signification of the sub-lord. To substantiate this, let me discuss the horoscope of my friend's wife, Srimathi K., hereunder:-

In this birth chart, you might notice that Rahu period was over by June, 1972 and by then the girl had completed her 20 years of age and not got married.

Rahu, by its star lord, signifies IX, III, and X having no planets in its star, Rahu again get XIIth signification also, not conducive to bring about marriage, more so Rahu being in the sub of Moon owning VI and signifying IX and X again, inspite of Rahu, as node, representing Saturn a full significator of VII (note there is no planet tenenting the stars of Saturn), so marriage did not come up.

Then came the major period of Jupiter and it was from her 20th year and 35th year of age (from June, 1972 to June, 1988). Jupiter is in the IInd bhavam and owns II and XI. Further Jupiter is in the star of Ketu in Leo, and VIIth cusp falls there in Leo at 15°-15'-20.' So Ketu, as node, represents Sun and VIIth bhavam also. Though Jupiter in a way gets the VIIth signification also, being placed

in Ketu sub and Ketu being in its own star in VIth bhavam, fully signifies the detriment status for marriage. So her marriage did not come up in Jupiter period also.

On 21-6-1988 started the major period of Saturn.

Saturn, having no Planet in its stars, is posited in VIIth bhavam, as such fully signifies VII.

Through star it signifies IV and VI, of course, a detriment status for marriage.

But Saturn apart from its VIIth signification, being in the sub of Mercury, a full significator of II, and V got her married on 19-8-1988, in its own anthara itself. It was a Friday and Swathi star day (Thula Rasi) both ruled by Venus in terms of the Sub-Lord of the VIIth cusp.

Now we are discussing a more crucial matter:

As you all know how, that Saturn being posited in the star of Moon in IV, in Saturn period, one cannot expect a child, more so in the bukthi itself. The bukthi ends by 24-6-91.

But she conceived in the bukthi itself and delivered a male baby on 29-10-1989, in the Swathi star day (Thula Rasi owned by Venus). How is it, there is a child birth in the period, and bukthi of Saturn a full IVth significator? (IV th is the vrayasthana for Vth which stands for progeny.)

Here the Sub-Lord speaks

Of course that star lord position of IVth got her a good workshop, which was under litigation, got cleared through Court of its encumbrances, owing to its VIth signification. This is the star lord status of Saturn, which set right the working of the work-shop.

Now look into the sub lord of Saturn. It is Mercury. Mercury is in IInd bhavam in its own star Revathi, owns Vth and VIIIth; no planets in vth bhavam, and in VIIIth bhavam.

So Mercury attains a full signification of II, V, and VIII and Mercury is the sub lord of the Dasa and Bukthinatha Saturn. Despite the fact that the Dasa lord Saturn being a full significator of I, VII, and IV detriment houses for child-bearing its colour got changed through the power of Sub of give its significations of II and Vth, the matter being progeny, and finance, and Kutumbha Vridhi. VIIIth signification did not bring about any surgical matter during birth. Why? The VIIIth cusp Sub lord is Venus a full signifiator of I, II, and XI as such the VIIIth bhava is negated to give accidental and surgical matters and on the contrary will give sudden money flow, through wills.

She has a male baby born on 29-10-1989 in Thula Rasi in terms of the sub lord of the Vth cusp, being Venus, as the birth star of the baby being Swathi.

This Article is mainly to stress the point that sub has a better say in assessing the matter, even if the star lord does not indicate such matters, as discussed above.

All the praises must go to our late Guruji Sri KSK., who had invented this predictive system with the blessings of Lord Uchishta Maha Ganapathi.

Good Luck

SUB - LORD SPEAKS

Under the above caption, I have extracted the lines of Sri K. Ganapathi, S/o sri KSK how he emphasised the impact of the Sub Lord and how its significations altered that main significations of the star lord into benefic or malefic manner as in terms of its significations. An example birth chart was also discussed in a detailed way, substantiating the same. As I am meeting many a student of KP whose usual complaint is that the signification of VII and XI did not help to fructify the marriage and VI and X has not brought service too often.

To explain this, I shall again reproduce some of the golden lines of our beloved Guruji, Sri KSK in this connection. He was very emphatic in telling how the prediction should be given only after looking into the Sub Lord where the planet under observation is stationed: - (KP Reader No. III).

“Constellation needs consideration. The sign is not very important. The house occupied by a planet should be judged, taking in which constellation the planet is posited. The role of the sign occupied by a planet is not so important, as that of the constellations.”

“So a planet ‘A’ offers the results of the house occupied by that planet ‘B’ which is the lord of the star wherein this planet ‘A’ is deposited.”

“Again trouble arose when 2, 3, or 4 planets are found in the same constellation, as all the planets in the same star, though referring the same matters, yet gave diametrically opposite results.”

“This made me to think further and caused me to further carry on the research. I found that every constellation must be divided in the manner I have said, in 9 subs of each sub having that area in a

constellation in the proportion in which they are allotted the number of years in Vimshottari Dasa."

"I proved that planets occupying any one constellation has connection with the BHAVA occupied by the lord of the constellation.

Those planets in that constellation are termed as the SIGNIFICATORS of that Bhava occupied by the Lord of the constellation."

"Thus if one works out for all the planets, then each planet is found to signify the matters of a few houses."

"Then judge each planet."

"The planet signifies a matter, Whether it votes for the progress and prosperity of that matter or due to the Sub-lord it is not capable of doing good, further it does harm to that bhava signified by the planet, is to be studied."

"If a planet is the significator of Lagna Bhava it gives long life. success in attempts, it helps to maintain good health, at the same time if the *Sub-lord* is not the significator of VI, or VIII, or XII."

"If the Sub-lord of that planet signifies VIth house, he falls ill; if sublord signifies VIII, he meets with danger, and if XII one runs away, or imprisoned or hospitalised."

"Therefore, constellation lord shows whom or which matters it refers. But the deciding factor, good or bad, success or failure, is shown by the SUB occupied by the significator."

I have various instance to quote and to substantiate the above lines of our Guruji Sri KSK., and I shall be writing with details in the columns of KP & Astrology in future.

Now I take up two birth charts for discussion:

1. Birth chart of Mr. N.M.

Date of Birth : 27-2-1945

Place of Birth : Madras, 13°-4'/80°-17'

Mars 17-19 III 13-9			X 15-9 Moon 24-28
Kethu 22-46 II 12-9	Asc. 13-29	XII 17-9	Jup. 1-13 IX 17-9

If you look sharp and observe the signification of MARS obtained through stellar status, they are Lagna, III, VI, and X. It is an envious combination, and one should attain in this period of Mars from June 1964 to June 1971 good service status with high salary, a big recognised standard of life with environmental status.

Nothing Happened and he of course, served in an industry as a Turner with an ordinary income and it abruptly ended in the bukthi of Moon during 1971.

Now you look back and go through the lines of our late Prof. Sri KSK. He said that the signification of the planet through constellation lord tells the matters only and the SUB - Lord decides, in terms of his benefic or malefic significations.

Here the sub-lord is Saturn; and Saturn attains the signification of VIII mainly and VII also as there is no planet in its stars, In terms of this there was no financial progress and he suffered vicissitudes also.

Then he entered the major period of Rahu on 15-6-1971 for 18 years. Rahu is in VIIIth there are planets in the stars of Rahu and Rahu is in the star of Jupiter in X owning II and V, There are planets in II and V.

Hence Rahu signifies X fully and II and V feebly. So the native of this birth chart should have had occupational income and status all through Rahu period.

No is the answer.

He had neither regular service to tell, nor any good business life to reckon with. He had his head in many a business life with no purpose and no positive results, except involving himself in heavy debts.

To put it in a line, I can say that it was a abarren period, all through.

What is the reason?

Now look for the Sub-lord of Rahu. It is Saturn again.

Saturn is in VII and no planets in its stars and it is in the star of Rahu in VIII. Hence Saturn signifies VII and VIII.

The occupational life ended in failure and was with vicissitudes. But he had enough public contacts, with a reputation as the Xth signification of Rahu worked through VIIth. So many public contact duly commanding respect, with an impact on his knowledge. So the Xth signification of Rahu has worked out for him as a successful public persons in terms of VIIth but with no returns also in terms of VIIIth signification.

From 15-6-1989 the major period of Jupiter is on and it is for 16 years.

Jupiter is in Xth bhavam and there is Rahu in its star & Jupiter is in the star of Sun in IV owing X.

So Jupiter gets the Xth and IVth significations through constellation lord.

Will this Xth and IVth signification work well? So look into the Sub-Lord of the Dasa Lord Jupiter. It is Rahu.

Rahu is again in the star of Jupiter in X and this promises successful and benefic way of life through Jupiter period. Actually by June or July of 1989, the case pending on his workshop got cleared of all the encumbrance and he got good financial support concurrently and he re-started his industry and running very well, yielding him good, regular income, duly giving him a general boost in his life.

I am taking up another birth chart to emphasize the idea that more credence to be given to SUB-LORD before venturing a prediction.

The following is the horoscope of Mr. S:

Date of birth : 26-1-1920 (Monday)

Time : 7-58 a.m.; IST

Place of birth : Poonamallee (Chennai);

Planet	Sub-lord	Planet	Sub-lord
Sun	Rahu	Venus	Sun
Moon	Venus	Saturn	Mars
Mars	Sun	Rahu	Venus
Mercury	Saturn	Ketu	Moon
Jupiter	Venus		

Cusp	Sub-lord	Cusp	Sub-lord
I	Venus	VII	Sun
II	Venus	VIII	Venus
III	Mercury	IX	Saturn
IV	Moon	X	Sun
V	Rahu	XI	Rahu
VI	Saturn	XII	Saturn

In this birth chart Mercury and Ketu are in the star Uthiradam and Krithigai respectively. All KP followers know well that both the stars are owned by Sun.

Hence Sun is the constellation lord of both Mercury and Kethu and it is deposited in the XIIth bhavam and owns VIIth.

So both periods of Mercury and Ketu should have been bad, in terms of the significations of Mercury and Ketu being XII and VII. These periods must have given him serious troubles, high expenditure out weighing his income, serious opposition, machanisation of secret foes.

He was running the major period of Mercury from July 29 to July 46.

In this period he was the owner of good landed property worth mentioning with high yield of paddy. A big house to live in, happy kutumbham with calm atmosphere. No shortfall in finance. Then how is it when Mercury is a full significator of XII and VII?

Here the Sub-Lord speaks.

Now look into the Sub-Lord of Mercury. It is Saturn, a full significator of X and IV.

The powerful signification of X and IV has sustained his status and he was a reputed landlord, with high and regular yield from his

fields and thus the occupational status was enjoyed by him. Further in the year 1945, when Saturn bhukthi was on, he had the luck and honour of being called for by Government to sit as Jury in Sessions Court at Chenglepet.

Also that as Saturn a full significator of X and IV, in his bukthi he had social troubles also duly involving him indirectly in criminal case in terms of the Sub-lord of Saturn being Mars, a full significator of VIII, but overall not affecting his general status in the village and on the contrary he was looked at with awe, in terms of the xth signification of Mars the Sub lord of Saturn. He was well protected and supported against odds. Summing up the entire periods of Mercury was a good one with high income, good and peaceful family life with a child, high esteem in society, and also in Governmental sphere.

The XIIth signification of Mercury involved him in secret criminal dealings with village folk, but the status of the Sub lord has converted the same XIIth matter into an air of influence, giving him a status of leadership in the village, in a manner.

Then he entered the major Dasa of Ketu from July, 1946 and it was for 7 years.

As already pointed out in earlier paras both Mercury and ketu are stationed in the star of Sun being Uthiradam and Krithigai respectively.

Hence Ketu also attains the signification of XII & VII in terms of the constellation lord sun.

The malefic matters of Sun expected out of significations of XII and VII through starlord got averted by the Sub lord Saturn with benefic significations of X and IV during Mercury major period. But Ketu obtaining the same significations of XII and VII through its starlord Sun being in Krithigai, could not be contained

with and the native suffered untold sufferings, unfolding all the bad matters of XII and VII bhavas. -

He, in the beginning of the period lost his beloved child, duly followed, of course by a happy matter of a female baby being born. The same secret involvement, with criminals and rustic village folk started during Mercury period, now in Ketu period landed him in open enmities, extreme wasteful expenditure, over and above his income, resulting in debts accruing.

In the bukthi of Jupiter he lost his young and beloved wife, during 1949, leaving behind a very young child of 2 years old, under his care, binding him with responsibility.

And soon after within a month, got himself entangled in a village matter, which cornered him to that extent of leaving his native village in a hush overnight, culminating into the loss of all his parental assets for an unjustified value, with the result he looked very small in the eyes of his relatives.'

Mercury in his period with the same significations of XII and VII give him around happiness and social status. Why? It is the Sublord Saturn, having benefic signification of X and IV.

Now the quite opposite happenings in the period of Ketu with the same signification of XII and VII through star lord Sun and these malefic matters of XII and VII could not be controlled as Ketu the Dasa lord in the Sub of Moon, why?

Moon is in II, but there are planets in Moon stars. So he does not signify II.

Moon is in the star of Saturn in VII owing XII and I. So Moon fully signifies VII, XII, and I also.

So Ketu could not contain itself without troubling the native, to the extent of losing his entire paternal properties, leaving his birth

place for ever, owing to the ruthless open enmities. The Lagna signification of the Sublord Moon retrieved his lost status to a meagre extent, by giving him in Saturn bukthi, a service in railways, though the pompous status is once and for all gone.

The Lagna signification of the Sublord gave him a secret support of some people in the village to fight against his opponent, as he decided to withdraw from the scene on moral grounds. No body could lay hands on him, even though he was with a meagre support. By this, the followers and students of KP can well be sure that the Sublord speaks more emphatically and decides the matter in terms of his significations only.

Good Luck

Appended below is the Horary figure made out at 6-00 p.m. IST on 10-4-90 at Chennai 13°-04'/80°-17'.

Number 42 given by Mr N.M. regarding the purchase of a motorbike.

Query was specific. "Will I purchase a motorbike, if so will it be useful without any trouble whatsoever? I have one in my view for which an advance amount has also been paid."

Readers may please note that it is already under his control partially, as he had paid an advance amount and so where is the trouble about it in coming under his ownership?

It was really a shock to the querent when it was predicted in a negative way, duly telling him that the issue will be a futile one and he may not get the bike under reference now.

Kindly look sharp and read the Horary, duly assessing the strength of the CUSPAL & PLANETARY SUBLORDS.

Sun 26-39-44 XI 25-49-33	Mercury 15-42-11 XII 29-04-44		I 00-00-00 Jupiter 10-19-39 II 25-42-32

Matter was discussed, duly assessing the strength of the **SUBLORDS** of the relevant houses and cuspal degrees, along with the strength of **SUBLORDS** of planets.

As it is a matter connected to the purchase of a vehicle (Motorbike) IVth cusp **SUBLORD** was looked into.

The **SUBLORD** is **SATURN**.

SATURN is in Capricorn $1^{\circ}-8'-02''$ and so its star lord is **SUN**.

Sun is in Pisces $26^{\circ}-39'-44''$ and is in XIth Bhavan. Further the same star lord **SUN** rules the IVth cusp also, which stands for vehicles, here Motorbike.

This signification attained by the **SUBLORD** of the IVth cusp, initially emboldened me to tell his success in the purchase of the vehicle, under reference.

BUT the inner mind suddenly prompted me to make a re-check in terms of the strength of the relevant **SUBLORD SATURN** with reference to its **SUBLORD** status.

SATURN was found in the **SUB** of **RAHU**. Rahu was longitudinally 19°-28'-26" in Capricorn, relevant to VIII bhavam. The same Rahu is in the star of **MOON**, stationed in vth bhavam, duly owning the IIIrd cusp and no planet in IIIrd bhavam, a complete detrimental status for the purchase of the vehicle.

Now the students may please note that the star status of **SATURN** indicated the purchase of the vehicle, and the **SUB-LORD**'s specification indicated quite the contray.

At this juncture I could remember our **GURUJI**'s words "The **SUB** decides the matter. Matter is shown by the stellar position."

So I was emphatic in telling Mr N.M. that the purchase may not materialise finally.

On 11-4-90, the owner of the bike intimated him, that he, at the moment, had no mind to part with the vehicle and if at all he sells the same, the preference would fall on Mr. N.M. only, duly returning the advance amount.

Thus ended the matter.

And so, we are rediscovering the famous **KRISHNAMURTI PADHDHATHI**; an Advanced Steller Theory, by rightly calling same as **SUB THEORY**.

With Pranams to our **GURUJI**, Sri KSK.

Good luck

SUB - LORD SPEAKS

Apropos our great GURUJI sri KSK's Article, captioned "WILL THE PLAY BE CONTINUED OR NOT" on page 1 of the June, 1990 issue of KP & Astrology, I request you to note the lines in the IInd para in the IInd column. I reproduce the same for immediate attention.

"So judge the Vth & XIth cusps. Sub Lord of the XIth cusp in Sun. It is in the sub of Jupiter in VII. not connected with V. Hence one will switch off the Television as the desire will not be fulfilled by seeing it."

And again note the lines in the IIIrd para;

"Take Vth cusp. Moon is the sub lord and it is in the sub of Rahu significator of V (Moon Lord of V). Therefore there will be game."

From these lines the student should make note of that GURUJI gave stress on the Sub Lord of the planet under question for finality. So, with this in mind, let me analyse 3 birth charts and point out how Sub Lord alone has the final say in delineating the results.

The native was running the major period of Moon upto 6-11-1951.

Moon is a major significator of IX as it is posited in its own star HASTAM in IX and very feeble significator of VIII as it is tenented by Rahu. In this period of IXth significator, he lost his father in Venus bukthi.

How? Moon is in the sub of Mars who is the bhadhakadipathi from IXth as IXth cusp owner for Simha a sthira rasi. Bukthi Lord Venus in the sub of venus itself and so signifies Xth which is a maraka position for IXth which stands for father.

He got into service on 28-11-1962. It was Rahu major period and the bukthi of Jupiter from 28-7-61 to 23-12-63.

Jupiter is in the VIIth bhavam and in its own star Punarpoosam and owns Lagna cusp and IVth cusp. All these significations do not connect to service and professional life to start with.

So, look into the sub lord and it is Rahu. Rahu is in VIII, corresponding to Leo and so it represents sun which is a significator of xi and X (no planet in Sun's stars and Sun is in XI and in the star of owing x Mercury and no planet in X).

Rahu is in the star of Kethu in II.

It was in the ANthara of venus. Venus has no planet in its stars and owns VI & XI (no planet in VI). Venus in the star of Mercury in xi, owning Xth cusp. The Anthara lord Venus is in the sub of Venus and so it again signities VI, XI, & X.

So, on the day the entered services, the Dasa Lord Rahu signified II through Sub Lord; Bukthi Lord Jupiter signified II, X, & XI through Sub Lord and the Anthara Lord Venus signified II, X & XI through Sub Lord.

Another major even is his marriage on 25-5-1966. Let me discuss this also.

Dasanatha Rahu in its own Sub and its in the star of Kethu posited in II and the same Rahu represents Sun, a significator of X, XI, & VII as explained earlier.

Bukthi Lord Saturn having no planet in its stars in V and owning II & III and also posited in the star of Moon in IX. Saturn is in its own sub also.

Antharanatha Rahu is in the above said status.

In this period, he got married (between 7-1-1966 to 11-6-66) on 25-5-1966 on a Saturn star day, i.e., Poosam.

Rahu major period ended by November 1976 without any major events. Then started the major period of Jupiter and it is for 16 years from 16-11-1976. Jupiter is in the VIIth bhavam, in its own star Punarpoosam and owns Lagana cusp and IVth cusp. So

signifies VII, I, & IV. Jupiter is in the Sub of Rahu who represents Sun of rahu who represents Sun duly signifying XI & X, and further Rahu is in the star of Kethu in IInd bhavam. So Jupiter period gave a stepped up status in the life of vaikari. The major signification of VIIth of the Planet Jupiter has been converted into big clientele and VIIth worked add assumed the colour of X in terms of signification of the Sub Lord. He has more useful clients with the advent of this period, as an Astrologer he enjoyed an established status with good recognition as such.

As the VIIth significator is in the Sub of IInd significator, the adverse matters of VIIth such as open opposition and litigations have been eradicated and on the contrary it fetches him good income through clientele (VIIth).

Next let me take up the 2nd horoscope of Mr J for discussion.

THE NATIVE OF THIS CHART IS A GAZETTED OFFICER with the advent of Rahu period which started by July 1974; and with a stepped up and lucrative status as an Electrical Inspector from Jupiter bukthi which post he is still holding with wide powers.

Let us discuss what Rahu tells.

Rahu is in IIIrd bhava and is in the star of Kethu in IX. What this tells? NO service at all. then how is it that he enjoys such a powerful service in this period of Rahu?

Now, look at the Sub Lord of Rahu. Rahu is in his own sub.

As node, in its own star or sub, Rahu attains the full signification of its Rasi Lord. Here the Rasi Lord is Sun, who is a full significator of II, VI, & XI (Sun is in the star of Jupiter in II, owning XI. Jupiter is in its own star in II, and no planet in XI. Further, Sun is in VI and no planet in its stars).

So, Rahu the Dasanatha acquires the strength of II, VI, & XI through its rasi Lord under its Sub Lord status, as explained above and so a fine service status is being enjoyed by the native. During Mercury bukthi from July 1982 to January 1985, he had lot of additional money and his bank balance went up.

How? Mercury is in v and own Vth cusp. No planets in Mercury stars. This position itself tells financial stress and strain. And further Mercury is in the star of Rahu in III. This position under star lord status does not portray this financial betterment. Look at the Sub Lord of Mercury. It is Venus. Venus is in VI and owns vi, and is deposited in the star of Jupiter in II owning XI (No planet in XI and Jupiter is in its own star).

The Sub Lord signification of Mercury has given such a strength to Mercury and in that bukthi he had reached a sound financial status apart from his service circumstances.

Venus bukthi from February 1986 to February 1989 passed off without any major improvement materially, though it was there in terms of the Sub Lord Mercury which fully signified II, & III as much was expected in Venus period as it signified II & XI through its star lord signification only.

Followed by Sun bukthi from February 1989 to January 1990.

Let me discuss threadbare the strength of Sun in this chart.

Sun is in VI and no planet in Sun stars, i.e., Uthiram, Uthiradam, and Krithigai. So Sun is a full significator of VI & IV. (Sun rules IVth cusp and no planet in IVth bhavam). Further, Sun is in the star of Jupiter in II owning XI. So Sun fully signifies through star, VI, IV, II & XI. It is fine through Star Lord signification.

In this bukthi the native attempted a very big project, and had this bukthi worked well in terms of the above significations, i.e., VI, II & XI it should have multiplied his bank position ten-fold. On the contrary a sizeable amount was handed over to one of his well wishers for progressing the project; and as it was a failure, his own money had to be drawn from his back in piecemeal.

Why?

The same planet Sun is in the Sub of Kethu. Kethu is in the star of Rahu in III and Kethu. Kethu being a node represents Saturn fully. Saturn signifies XII & VIII (Saturn is in XII and no planet in Saturn stars. Saturn is in the star of Moon in VIII). Hence the failure to a major extent. He has now reached the bukthi of Moon on 1-1-90. Moon signifies I & VI through star position, as it is in the star of Venus in VI owning Lagna and VIth cusp. The same Moon is in the Sub of Jupiter signifying II, XI, & VIII.

The signification of VIII through Sub brought the demise of his father, as VIIIth being the vrayasthana from IX which stands for father. From IXth Moon, bukthinatha owns the VIIth from IX, the

marakasthanas for father. The xth signification of Venus from IX, the star lord of moon tells the last journey of father.

As Moon gets II & XIth significations also through Sub strength, this bukthi shall retrieve his financial status and shall give him boosted financial income before it ends by July. 1991 preferably during Mercury Anthara.

Next is the major period of Jupiter which starts on 9-7-1992 and it is for 16 years. Jupiter is in IInd bhavam in its own star, Punarpoosam and owns VIIIth & XIth cusps. It is in the Sub of rahu who as node fully represents the sign lord Sun, a full significator of VI, IV, II, & XI and so, that period will give him high and stepped up material success with stable household and vehicular properties with high comforts.

Let me take up IIIrd birth chart and discuss how the Sub Lord of planets had a stamping effect in disturbing the marital portion of life of Smt R.

Date of birth : 5-10-1961

Planet	Sub-lord	Planet	Sub-lord
Sun	Mercury	Rahu	Venus
Mercury	Mercury	Mars	Jupiter
Saturn	Rahu	Venus	Jupiter
Moon	Venus	Ketu	Mercury
Jupiter	Saturn		

In this instance, I desire to discuss the Significations of all the nine planets and make a survey in reference to her marital life as under:

Planet	Signification in terms of star	Signification in terms of star
Sun	V	VII, III, IV, V, VI
Moon	XI, VI	II, VII, V
Mars	V, VI	VI, X, IX
Mercury	III, V, VI, VII, IV	III, V, VI, VII, IV
Jupiter	VI, X	VI, X, XII
Venus	V, II	VI, X
Saturn	VI, XII, X	XI, X, VI
Rahu	XI, X, VI	II, VII, V
Kethu	I, VIII, VII	III, IV, V, VI, VII

Though Sun gets the good signification Vth; but through Sub, significations are IV, & VI which negate the matrimonial happiness.

Moon is the lone planet which gets XI, & VI under star and II, VII. & V under Sub, so there will be a happy matrimonial enjoyed during Moon Period.

Mars gets V & VI through star, the happiness is completely negated by the Sub getting VI & X signification.

Mercury having equal significations of VI, VI, VII, & IV with serious negation for matrimony arising under VI & IV significations.

Jupiter gets VI & X through star and additional XIIth, apart from VI & X, is a definite portrayal of detrimental status for peaceful matrimonial life. It is very bad.

Venus gets V & II significations through star, and at the same time gets VI, & X through Sub tells the bad status of matrimonial life.

Saturn gets VI, X & XII through star, and through Sub signifies XI, X, & VI. The lone XIth signification gives very little encouragement in the matrimonial portion of life.

Rahu gets XI, X & VI through star telling mixed results matrimonially but very happy one through Sub, getting the significations of II, V, & VII. This will give a happy matrimonial status.

Kethu has I, VII, & VIII through star, a satisfactory one for matrimony but a mixed one through the Sub signification of V & VI.

The girl got married during the bukthi of Kethu in the major period of Venus. From the date of marriage she did not enjoy peaceful matrimonial life, not happy at all.

During the period of Sun from September, 1987 differenced between the couple came to surface and got divorced during 1989 during the bukthi of Jupiter a full significator of VI, X, & XII through Sub and the bukthi of Jupiter rules from 5-10-89 to 23-3-90.

From the above signification chart, you will notice, except Moon and Rahu, the other planets negate her peaceful matrimonial life. This is the assessment.

Good Luck

In a nativity IIIrd house stands for perception, learning and intellect, and the IXth house for reasoning and intuition, higher mind, transit that is rapid, prophetic awareness, higher brain power, delving into mysterious realms and attaining very unusual accomplishments. One should look at the IXth house to find out if there is BHAGYA accumulated as a result of his poorvapunya.

Here the IXth cusp Sub Lord is KETU. It is in IInd in the star of Moon in IInd bhavam, in its own star and owns IXth. And Kethu is in the Sub of Mercury signifying II & X. So Bhagyam is there evident and it will act through his brain power and VAKKU and bring him a great name and status.

Again in this birth chart, the Lagna Cusp Sub Lord is KETHU. KETHU is in II, one of material trinity (II, VI, X), and placed in the star of Moon in II owning IX, a house representing poorvapunya.

The very fact that Moon, the IXth owner placed in II in its own star creates a healthy status for poorvapunyam to act in high beneficial manner and in as much as the planet Moon the IInd significator attains the star lord status of Kethu, the Sub Lord of the Lagna Cusp and IXth cusp.

Such a combination detailed above tells the birth as a result of high poorvapunya channeled through IInd, which stands for VAKKU (vocal power) of the material trinity, IInd house stands for material prospects through his way of expression of matters of extrinsic value his ability to express and his VAKKU.

IXth cusp Sub Lord is also Kethu. Kethu as already discussed is in the star of Moon in II owning IX, and the same Kethu signifies II & X through its Sub Lord Mercury.

As IX, the house of higher brain power and as it is imbibed naturally with the quality of rapidity, attain very unusual accomplishments with quick down pour of matters, when well connected to one of the houses of material trinity ie., II or VI or X. Here as IInd that stands for VAKKU is well connected to IXth he is able to give astoundingly quick mathematical answers which an ordinary person cannot dream to rise to that standard at all. The owner of the IXth house is Moon and he is called Mathi, the mind. This Moon is in its own star in II, and in the Sub of Jupiter in X another material house, owning V, the house standing for intellect and intelligence (please note no planet tenants the star of Jupiter). This combination tells that the boy is endowed with high intelligence and higher brain power to attain very unusual accomplishments. Moon is usually very good if we find it in IInd bhavam, promising a gifted tongue.

If one makes a survey of all the planets, he may find that almost all are connected to IXth through IInd bhavam, a powerful benefic house.

Let me discuss one by one, cusp-wise.

1st cusp Sub Lord Kethu is in IInd bhavam in the star of Moon in IInd owning IXth. The same Kethu is in the Sub of Mercury in II & signifies X.

IIInd cusp, Sub Lord Mars in II (no planet in Mars stars) in the star of Moon in II in its own star and owning IX. The same Mars is in the Sub of Rahu on the IXth cusp duly signifying II & XI (Rahu is in the sub of Kethu and the IXth cusp is also formed in the Sub of Kethu. Hence Rahu is deemed to be on the IXth cusp, and as no planet is tenanting its stars, Rahu acquires the IXth signification fully).

IIIrd cusp Sub Lord Mercury in II, in the star of Sun in II and this planet is well connected to IXth through Sub Lord Mars being placed in the star of Moon in II owning IX.

IVth cusp Sub Lord Jupiter in the star of Moon in II owning IX and also signifying X & V as no planet is in its stars and in V and the same Jupiter is in the Sub of Saturn signifying II, IX, and X also as no planet is tenanting its stars.

Vth cusp Sub Lord Mars is well connected to II & IX (please see the above discussion regarding IIInd cusp).

VIth cusp Sub Lord Saturn in X (no planet in Saturns stars) in the star of Moon in II owning IX. Saturn is in its own Sub and so again signifies II & IX, apart from X.

VIIth cusp Sub Lord Mercury is in the star of Sun and so signifies II & IX and is in the Sub of Mars signifies II & IX and also VI.

VIIIth cusp Sub Lord Sun in the star of Venus in I and so signifies I, VII, & XII, and the same is in the Sub of Saturn and so signifies X, III, II, & IX.

IX the cusp Sub Lord is Kethu (as already discussed) and it is in the star of Moon in II in Thiruvonam and so Kethu signifies II & IX. The same Kethu is in the sub of Mercury in II, signifying II.

Xth cusp Sub Lord is Jupiter is in the star of Moon in II owning IX, and so signifies II, IX, X and is in the Sub of Saturn signifying X, II & IX.

XIth cusp Sub Lord Mars is in II and in the star of Moon in II and no planet in Mars stars as such signifies II, I, VI & IX, and also in the Sub of Rahu on the IXth cusp (no planet in Rahu stars) and signifies II & XI (for details see discussion on IIInd cusp.)

XII cusp Sub Lord Saturn is in X and no planet tenanted its stars and Saturn is in the star of Moon in II owning IX and so signifies II, IX, & X. Saturn is in the Sub of Saturn itself and so gets the signification of II, III, IX, & X.

On an overall assessment of the significations of these 12 cuspal Sub Lords, we note that the Sub Lords are under star or sub connected to IX & II, with better emphasis on the IIInd, one of the material trinity and thus tells his higher brain power attaining very unusual accomplishment.

Now he is under the major period of Mars from 27-9-1988 to 27-9-1995. Mars is a full significator of I, VI, II & IX through Star Lord and under Sub Lord Rahu, signifies IX, II, & XI (and also II & IX as node Rahu represents Moon). So in this period he earns high name and status through his brain power.

Period of Rahu is from 27-9-1995 and rahu on the IXth cusp, having no planet in its stars, for VRISCHIKA lagna natives, is a matter debatable.

Good Luck

SUB - LORD SPEAKS

I have been writing some Articles under the above caption, forcing the utmost importance on the usage of the Lord of Sub while rendering prediction, and I have also brought home to the students, of K.P. that in the absence of using which, liability of failure in hitting the correct results.

I have reproduced the golden lines of our Late GURUJI Sri KSK regarding the ROLE OF SUB and Sub Lord in prediction. Still I want to reproduce some more lines from his Book, KP Vol-II, hereunder:

“The strength of a planet is judged by nothing the sign occupied by it. The planet in a sign is the source of the result, which it bestows according to the lord of the constellation in which the planet was tenanted. The nature of the results which the planet gives includes whether the planet is in a positive sign or negative sign, in a movable or fixed or common sign, in a fiery or earthy, airy or watery sign, in a fruitful or a barren sign, in a mute or voice sign, in a violent or human sign.

All these must be taken into consideration before judging what a planet can do.

“A planet in any of the constellations will be under the sway of the lord of the constellation. Therefore instead of giving many probabilities according to sign, the three constellations in a sign divide them into 3 groups.”

“Each constellation is divided in 9 divisions under the name of SUB, in the proportion in which they are allotted total number of years in Vimshottari Dasa system.”

“Such Sub Division (SUB) is found necessary not only to differentiate results indicated by two plantes, but also the cusps in the same constellation.”

“So the Sub Lord reduces the number of probabilities to be chosen for prediction.”

“So all matters such as Health, Disease, Longevity, Education, Profession, etc., clearly and correctly predicted only when the Sub is included.”

“To clearly indicate the correct matter, one can find that the SUB serves better, and gives correct and clear prediction, whereas the lord of the constellation is that which shows the nature of the result only i.e., to which houses the lord of the constellation is the owner and the matters signified these houses will manifest.”

“Further, a planet in the Sub of an evil planet indicates loss, difficulty or failure whereas the same planet in the same star but in the Sub of a benefic, promises success, gain and pleasure.”

“The lord of the constellation may indicate the matters of 7th house. The planet in the Sub of a malefic causes enmity, whereas that in the Sub of a benefic brings harmony and happiness.”

“The lord of the constellation may show any one walk of life to a native. It is the Sub which decides whether that area is advantageous or not.”

Having these lines in mind, I had been watching many a birth chart and in the process, I have noticed that the Sub Lord had such a strength, even to act quite the contrary to what the constellation lord signification more emphatically.

Let me discuss some activities here-under, on these lines, as an eye opener to the students of K.P.

First, I take up the nativity of Sri Kharun, born on 6-2-1954 at Tanjore (10°-47' NL; 79°-10' EL) in the morning hours at 5-39 AM IST.

Planet	Sub-lord	Planet	Sub-lord

The native of this birth chart is now running the major period of Mercury from 13-12-1982 for 17 years.

Mercury is in Lagna bhavam and owns VI & IX. No planets in the stars of Mercury. There is kethu in VI and Saturn in IX. So Mercury is a full significator of I and feebly VI & IX. And further, Mercury is in the Star of Rahu in XII and hence it signifies XII also.'

In Mercury bukthi i.e., from December 1982 to May 1985, he was an executive in a reputed Madras based firm, as Mercury is in the Sub of Jupiter signifying II & VII with substantial earning and with good contacts.

Followed by Kethu bukthi from May 1985 to May 1986. Kethu has no planets in its stars and posited in VI and also in the star of Jupiter in V. Though he enjoyed the service status in that bukthi in terms of the IV the signification of Kethu, he suffered vicissitudes in his service-life in terms of the signification of the Sub Lord Moon being Vth & XIIth significator.

Venus bukthi started on 7-5-1986 and was upto 7-3-1989. A deep study over this period will be of use to K.P. students.

Venus is in Lagna bhavam and no planet tenants its stars. Hence Venus signifies, I, V, & X (V & X feebly). Venus is in the star of Mars in X who owns XI th bhavam and no planet in XI also. Hence finally Venus signifies X & XI apart from I. These significations are fine, promising peace and prosperity.

But the same Venus occupies the Sub of Rahu in XII signifying VII and as node represents Jupiter a full significator of V, VII, & II.

In terms of these significations of V, VII, & II he was in closer league with a young girl of a big aristocratic family and faced serious difficulties and challenging opposition of higher magnitude in terms of V & VII. The signification of II attained by Sub Lord Rahu, got him settled down in a Kutumbyham of his own.

(Note that the VIIth cusp Sub Lord Kethu posited in the star of Jupiter in V tells love marriage and the Sub Lord of the Vth cusp is Jupiter who signifies II tells the girl in love is of high material Standard(. Got married with that girl on 29-1-88 in terms of the signification of the Sub Lord Rahu attaining V, VII & II through its representation of Jupiter as mentioned above.

Then started the bukthi of Sun from 7-3-89 to 13-1-901.

Sun is in the Lagna bhavam and in the star of Mars in X owning IV & XI. So Sun fully signifies X & XI, in terms of stellar status. As Rahu is in Uthiradam i.e., its star, Sun does not signify VIII.

So in such a bukthi of Sun with such signification of X & XI, he should have been well off in his service. But matter was quite contrary. He was obliged to leave his service on moral grounds.

Why? The same Sun is in the Sub of Mars in X. As there are planets in Mars stars it does not signify X. As the same Sub Lord Mars is stationed in the star of Saturn posited in IX he lost his service during March 1989 itself in terms of the Sub Lord signification.

The students may now note how the Xth signification of Sun under stellar status did not help the native to retain the service and the IXth signification attained by Sun through Sub Lord has affected his service status.

Then came the bukthi of Moon on 17-1-90 and it is upto 13-5-91. Moon is in star of Jupiter in V and so Moon signifies III & V. This is not a happy status when we consider the luck through its stellar signification.

If you look into the Sub Lord position, you will note that Moon is in the Sub of Mercury. Mercury is in lagna bhavam and no planet in its stars and so through Sub, Moon attains I & VI signification. Mercury is controlled by rahu (through star) of course in XII. As node, Rahu represents Jupiter a full significator of II & VII. This has given him a financial boost and the source being his life partner. This happy matter had occurred in the Anthara of Jupiter (3-6-90 to 7-8-90)

Jupiter, the Anthara Lord in V, in the star of Moon in II, owning VII, and in the Sub of Sun owning VIII in lagna, thereby duly signifying IV, X & XU in full, thus giving the native a big financial status through properties bequeathed to him by his Father-in-law, all of a sudden to the tune of several lakhs (please note Sun is in the star of Mars in X owning IV & XI).

Let me now take up the nativity of Mr. Muthu, born on 12-6-1961 at 7.30 p.m. IST at Chennai 13°4'/80°-17'.

IV 18-35-12	Ven 12-33-30 V 18-35-12	VI 15-35-12 Moon 20-37-10 Sun 38-3-15	VII 11-28-10 Mercury 16-57-50

Planet	Sub-lord	Planet	Sub-lord
Sun	Saturn	Rahu	Rahu
Mercury	Venus	Mars	Jupiter

Moon	Venus	Kethu	Rahu
Jupiter	Rahu		

This native of this horoscope is now running the major period of Jupiter from 25-6-88 for 16 years and now is Jupiter bukthi upto 13-8-90.

Juptier in II and owns I & IV and no planets in Jupiter stars. So Jupiter signifies I, IV & II. Jupiter is in the star of Moon in VI owning VIII. Summing up, Jupiter signifies I, IV, II, VI & VIII through stellar. In this bukthi the native got a child on 16-10-89.

In terms of stellar significations Jupiter had nothing to do with V whereas the planet fully signifies, I, IV, VI, & VIII as status not indicative of child birth.

Then how is it? Look into the Sub Lord position of Jupiter, the bukthinatha. It is Rahu Sub wherein Jupiter is posited. Rahu is in the star of Kethu in II. As node Rahu represents Sun, (Sun posited in the star of Mars owning V and no planet in V), a full significator of V a house for child birth.

— The birth of the child took place during the anthara of Venus (from 12-7-89 to 20-11-89):

Here Venus is a full significator of IV as Venus is in IV and no planet tenants the stars of Venus.

The same Venus is in the Sub of Mercury situated in the star of Rahu as a node fully represents Sun, a full significator of Vth (Sun is in the star of Mars owning V and no planet tenants V).

Further, to go deeper, at the moment the birth had occurred, it was the sookshma of Saturn (from 4-10-89 to 24-10-89).

Sookshmanatha Saturn is in the star of Sun signifying VI & VIII. But being in the Sub of Mercury posited in the star of Rahu and thus controlled by a node, and as node Rahu has acquired the full signification of Vth, as a full representative of Sun his rasi lord (Sun in the star of Mars owning Vth and no planet is in Vth bhavam).

Now it is clear that Sub Lord speaks the matter so well and the matter is well indicated.

Good Luck

SUB - LORD SPEAKS

This is the 7th Article under the above series, and I hope by now the students of the KP System might have fully understood the significance of the usage of the SUBLORD and its inclusion is a must while rendering prediction.

So, I feel I need not repeat the sentences of our beloved GURUJI SRI KSK and at this juncture I opine I am too late to tell you my dear readers, that Mr. MOHAN is the force behind me to write these Articles, stressing the utmost importance of SUBLORD while finally assessing the strength of a planet.

Now I take up the horoscope of my relative at PODALAKUR, (NELLORE District) and it is hereunder:

The native of the horscope is a Teacher by profession and a decent citizen of Podalakur, a small municipal town in Nellore District. He was running the major period of rahu from 22-6-61 to 22-6-79. He joined service as Teacher in his 23rd year ie, in the Bukthi of Jupiter (from 4-3-64 to 28-6-66).

Let me discuss Rahu bukthi (from 22-6-61 to 4-3-64). Rahu is in the star of Kethu in IV & in the Sub of Saturn in VII (no planet in Saturn stars) and it is in the star of Moon in III owning X. Then he was a student of Teachers' Training School and with some failures he finally and successfully completed during the beginning of 1964.

Then came Jupiter bukthi on 4-3-64. Jupiter is in its own star in IX. So Jupiter fully signifies IX, hence a negative force for professional status.

The same Jupiter is in the Sub of Venus placed in Xth in its own star Pooram. This gave him a permanent footing in a School as a Teacher.

He got married during May 1962 ie., in Rahu bukthi (from 22-2-61 to 4-3-64). As told earlier, Rahu through star lord position, signifies IV, but as rahu is in the Sub of Saturn in VII having no planet in Saturn stars, it signifies VII fully along with V, and so marriage came up in Rahu bukthi itself.

Rahu having the signification of VII, III, & X through Sub, the entire period went on well and peacefully.

Jupiter period started on 22-6-79 for 16 years. Jupiter is a full significator of IX having been stationed in its own star Punarpoosam in IXth bhavam. IXth as you all know well, does not promise an undisturbed professional life. At times it causes a negation also.

Here with the advent of Jupiter bukthi, he was elevated to the status of Assistant Headmaster, without disturbing his domestic life. No change of place.

As you already know, Jupiter is in the Sub of Venus in Xth bhavam in its own star Pooram, thus fully signifies X & I, and so the elevation with an administrative status also.

All know he is an ideal Teacher in Podalakur but it is only unfortunate to tell you that he was involved in a very big criminal case that went on between 1983 & 1986. His Mercury bukthi started on 22-2-84 and in the vicinity of its starting, on an unfortunate evening, he happened to witness a murder being committed, while he was returning from School.

Let us discuss how Mercury is connected to such criminal matters. Mercury is in XII, owning XII and no planet in its stars, Kettai, Revathi, and Ayilyam. So Mercury signifies XII fully and IX feebly, as Jupiter is there.

Mercury is in the star of Mars in XI owning II & VII. So Mercury apart from XII, signifies XI, II, & VII also.

XII & VII tells the connection to a criminal case, as Mars comes to the scene as star lord of Mercury the bukthi lord. All the two years, the case went on and as he is an ideal Teacher, he wanted to tell the matter he witnessed personally. But he was threatened with dire consequences if he were to tell the truth.

He suffered these threats and also enjoyed full support of the entire public of Podalalkur side by side all the two years. This event brought him to public and he was in limelight, as the bukthi lord Mercury signifies III & X through its Sub Lord Saturn (Saturn in the star of Moon in III owning X).

The case abruptly ended in the last Anthara of Saturn, just having been manipulated to drop him from examination in the witness box, The bukthinatha signification of III & X through Sub and Antharanatha Saturn signification of II & XI through its Sub Lord, a powerful position to and his trouble and agony.

Now we shall discuss how there is criminal connection to Mercury.

He signifies XII fully and also VII through star lord Mars. So Mars, VII & XII culminates into criminal connections.

The star lord signification of Mercury being VII & XII, have been converted into III & X through Sub Lord status and his status has gone high in the environment, with the result he became known to one and all in Podalalkur and this bukthi brought him to the forefront.

Now I shall take up the birth chart of a woman by name Sow R.

Here I am discussing the Dasa period, which brought her marriage.

Date of marriage is 14-5-1985. At the time of marriage she was running the major period of Rahu (from 26-9-79 to 26-9-97).

Rahu is in IX and no planet in its stars and so Rahu signifies IX fully.

Rahu is in the star of Kethu in IIIrd bhavam and hence it gets IIIrd signification also. Rahu is in the Sub of Venus in IX owning VII & XII.

Venus is in the star of Mercury in X owning XI & VIII.

So Rahu signifies III, IX, through star and X, XI, & VIII through Sub.

Significations of III, IX, XI, & VIII do support material matters. At the time of marriage, she was running the bukthi of Saturn from 2-11-84 to 8-9-87.

Saturn is in II and no planet in its stars as such it signifies II fully. Saturn in the star of Sun in x owning X and Saturn owns IVth and so Saturn is embibed with more detrimental significations for marital matter such as X & IV.

Through Sub, we shall discuss.

Saturn is in the Sub of Rahu signifying III & IX. Further Rahu the Sub Lord being Node represents Sun, who is a significator of VII & IX fully (Sun is in the star of Venus in IX owning VII).

Hence marriage took place in the bukthi of Saturn.

Let us now discuss why the marriage did not come up in the bukthi of Jupiter (from 8-6-82 to 2-11-84).

No planet in the star of Jupiter and it is in IInd bhavam and so Jupiter signifies II & V fully. Jupiter in the star of Sun in X owning X. Jupiter has got better signification for bringing about marriage comparable to Saturn through star lord signification. But Jupiter is in the Sub of Saturn and Saturn is in the star of Sun in X owning X and Saturn has no planet in its stars and owns IV. Summing up it can be stated that Jupiter is in the Sub of Saturn signifying X & IV.

Hence the Sub Lord signification of Jupiter had negated the marriage coming up in Jupiter bukthi.

During Mercury bukthi (from 8-9-87 to 26-3-90) she had the luck of purchasing and owning a big house.

Look at the star lord position of Mercury. It is in the star of Moon in X. As there is a planet in its star, Mercury does not signify XI. IVth signification is not at all seen here.

Now let us discuss the Sub Lord of Mercury. It is in Saturn Sub and Saturn is in II and no planet in Saturn stars and it owns IVth cusp and no planet in IV.

Hence through Sub, Mercury has II & IVth faculties and hence the purchase of house during the bukthi of Mercury.

Now I take up another birth chart of one Sow J. Born at 2.58 AM IST on 20-12-1962 at Chennai 13°04'/80°17'.

Currently she is running the major period of Rahu from August 1976 to August 1994.

Rahu is in the star of Saturn in IV and it gave her collegiate education and was graduated during Saturn bukthi in terms of the IVth signification of Rahu the Dasanatha and the bukthi lord Saturn signifying XI duly posited in IV and Saturn signifying IV fully being in the Sub of Jupiter in IV signifying IX.

Her marriage had taken place on 15-5-1985, during the bukthi of Mercury. Let us discuss Mercury bukthi and its signification.

Mercury is in III and owns IX and XII. No planets in the stars of Mercury. So Mercury signifies III, IX, & XII, Again Mercury is in the star of Venus in Lagna and so Mercury gets lagna and VIIIth signification also.

Mercury bukthi ran from 22-7-84 to 2-12-87. Mercury through star signifies III, IX, XII, I, & VIII. these significations cannot give marriage except betrothal. But she got married. How? Look into the Sub Lord of Mercury. It is Mars. Mars has no planets in its star and is in X. Mars owns II & VII, and so fully signifies II & VII. Hence Mercury gets II & VII significations through Sub Lord, apart from its III & IX significations through star lord.

Marriage was celebrated on 15-5-85 and it was Venus Anthara between 25-1-85 to 28-6-85.

Let me discuss Venus Anthara, where the marriage date falls.

Venus is in Lagna and owns I & VIII, and it is in the star of Jupiter in IV owning VI. These significations are quite detrimental for celebration of marriage.

Now look into the Sub of Venus and it is in the Sub of Saturn.

Saturn signifies XI since it is in the star of Moon in XI in its own star also (Hastham).

Now it is clear that Sub, and Sub Lord of a planet alone speak and the relevant matters come up and get implemented.

Before ending this Article, I like to bring home to the readers and students of KP that I am getting letters seeking clarification and for example one Mr Gopal Chandra Choudhury of Purulia (W. Bengal) had written to me on 4-8-90 that I am not including the cuspal Sub Lord in my discussion regarding planetary Sub Lords. I like to make it clear as follows:

- (1) Cuspal sub lord and its signification tell whether the native has such matters as shown by that bhavam are to be enjoyed by him or not and to what quantum.
- (2) Planetary Sub Lord and its significations tells the timing of such matters to get fructified and the matters as has been promised by the cuspal Sub Lords.
- (3) In both the above times, the Sub Lord of the Cuspal sub Lord and Sublord of the planet as Dasa Lord, is the final strength to act and Dasa effects modified accordingly.

Good Luck

He was running the major period of Rahu from 1971 to 1989. Rahu is in II in the star of Venus in VII. This promises happy marital life. But Rahu being placed in its own Sub he fully represents Mars, the Rasi Lord. Mars being placed in the star of Rahu in II, the period of Rahu was good and he was a Railway official.

Readers may note here, Rahu signifies through star IV, IX, & VII and so this tells no service. The Sub position and representation of Rahu had given him a good service life till he retired during 1987.

Coming to our main theme of family trouble, he had no disturbances in his house all through Rahu period, as Rahu is in its own Sub signifying VII (Rahu in its own Sub and so again Rahu is in the star of Venus in VII) hence upto March 89 no trouble.

Major period of Jupiter started on 30-3-1989. Jupiter is in III and no planet in its stars and owns II & XI. No planets in II & XI.

Now you can note Jupiter is a full significator of III, II, & XI through stellar status. Jupiter is in the star of Moon in II owning VI. These significations tell a great financial income and peace in kutumbham. Of course he lives in his own house, his wife is in good service and himself getting a sizeable pension. But no peace of mind at all.

Why:

Look into the Sub Lord of Jupiter. It is in the Sub of Sun. Sun is in VIII in the star of Mars in VIII. Sun owns VII (wife).

With the advent of Jupiter period, he is in extreme grief on account of his wife's licentious character and he has concrete proof of her having incestuous unions with her cousin's son who is a very young boy.

Please look into Saturn and the bukti starts by May 91 and ends by November 93. Saturn through star signifies VIII being placed in the star of Ketu in VIII. No planet in its stars and so signifies I & X, and XIIth bhavam as no planet in Saturn stars and in XIIth bhavam. so situation will be grim.

Any relief, look into the Sub Lord. It is Sun. Sun owns VII (wife) and in the star of Mars in VIII. So it will be disastrous for him. This I did not tell him and simply consoled him, to first avoid thinking of his wife's movement and devote to Him the Almighty who will guide properly during such difficult situations and he went away with a heavy heart.

This chart is discussed only to show how Jupiter with its significations of (I, XI, III, & VI) under stellar position could not give him domestic peace and gives him heavy mental disturbance and grief of driving him to suicidal tendencies, as Jupiter through sub signifies VII (wife) and VIII (grief here) with all his material assets in terms of the stellar signification of Jupiter. Now let me discuss the chart of his wife who is born on 14-1-1934 at 12-12 noon IST as 13°-04' / 80°-17' on a Sunday; S.T. 19-35-17' Ayanamsa : 22°-55-42-43".

We must now discuss if the chart reveals the licentious matter and also her incestuous union with her sister's son.

What is Sri KSK's views on this subject?

To say if a woman is chaste: If the Sub Lord of the 7th cusp is neither Mars, Venus, or Saturn and the same Sub Lord is not deposited in the constellations of Mars, Venus, or Saturn, occupying one of the signs of Mars, Venus, or Saturn, the woman will be chaste. So long as her Ascendant is in the constellation of Lord of XI, aspected by Jupiter, she will really be chaste.

To find out debauchery: Saturn, Mars, Venus connected with I, V, or XI eg. 1st, 5th & 11th cusps being ruled by Saturn, Mars, and Venus. Mars & Venus being significator of I & XI and aspected by Saturn and Venus aspected by Mars. The cusp of I & XI in Venus signs Mars star, Saturn Sub; or Saturn sign, Mars star, Venus Sub; or Mars sign Venus star, Saturn Sub.

To sum up Saturn, Mars, and Venus should be connected to I, V or XI Then the pleasant minutes with people not legally connected are indicated and incestuous union happens.

Love affairs: If the Sub Lord of the 2nd cusp is connected with the XIth house in any manner, you will have illegal connection with women other than your legal partner.

The XIth house shows friendship, union and success in love affairs.

The VII shows legal bondage and V shows one's love affairs, the degree of success or failure in love. Courtship and illegitimate attraction and social intercourse between sexes prior to marriage.

The II house helps you to think of the other sex as your own possession and within your environment to take the opportunity to make illegal contact, provided the Vth house is connected with the IInd.

Summing up if the condition mentioned above is satisfactory and successful, find out the significators of II & XI, and in the conjoined period of the significators which are in any manner connected with Vth, one is involved in such matters.

For fructification of love affairs into marriage the Sub Lord of the VIIth cusp must be a significator of XI and on the contrary signifies VI or XII it will not materialise.

Now let me reproduce the observations made by a Western writer VIVIAN E. ROBSON in his book Astrology and Human Sex Life.

Irregular and Illegal Unions: Should Venus be in aspect with Mars, each Planet being in other's house for example Venus in Scorpio or Capricorn; Mars in Libra or Pisces, there will be intercourse with a brother or sister or blood relation. If at the same time Venus is with the Moon in a man's horoscope, he will form union with sisters or other near relatives. Venus with Jupiter, in a woman's horoscope will cause union with brothers.

Venus aspect with Saturn each planet being in other's constellation, indicates union with relatives. In a woman's horoscope it denotes intercourse with sons and sons-in-law. If however, the Sun instead of Moon is conjoined with the angular planet and especially if Venus and Mars precede the Sun in the zodiac, man will have intercourse with their daughters or daughters-in-law, women with their father, paternal uncles or sons-in-law.

By going through what these two person ages have told, we have to conclude that house I, V, & XI afflicted by Saturn, Mars, and Venus bring about incestuous unions among people. With this in view, let us discuss this horoscope if there would be any licentious behaviour and her having incestuous unions with her sister's son as suspected by the husband.

The Sub lord of the 1st cusp is Mars. Mars in Capricorn owned by Saturn. Mars is in the star of Moon and in the sub of Venus. The Sub Lord of the Vth cusp is Jupiter. Jupiter is in Virgo in the star of Mars and Sub of Saturn.

The Sub Lord of the XIth cusp is again Jupiter who is in the star of Mars and Sub of Saturn, as said above.

So these 3 cusps are afflicted by Mars / Venus, Mars / Saturn, and Mars / Saturn. So we have to conclude that the native of this birth chart must have had licentious character and incestuous union.

Now she is running the major period of Rahu from August 77 to August 95. Rahu is in XI, no planet in Rahu stars and so Rahu signifies XI in full. Rahu is in the Star of Mars in X and in the Sub of Saturn in X in Capricorn.

So Rahu is well connected with Mars and Saturn and connected to V through star lord Moon, owning V. Hence she must have had such illegal union from the inception of this period, as the Sub lord and Saturn is well connected to V through Moon its star lord.

Now currently it is Venus bukthi from 8-3-89 when her activities came to surface and this bukthi is upto 8-3-92. Venus is in Aquarius owned by Saturn and is in the 1st degree and so in the star of Mars and in the Sub of Mercury stationed in Sun star and Sun is in capricorn of Saturn. So this combination portends such incestuous matter, as alleged by her husband and he accepted the date 8-3-89 from which date it was taken to have started as alleged by him.

Again the Dasa lord Rahu signifies XI and X and I through stellar significations and she is having good material standard and she is still in good service in Education Department. Rahu being in the Sub of Saturn, a full significator of X (no planet in Saturn stars) and Vth through Moon tells her licentious character all through.

Venus, the bukthinatha being in Saturn Rasi, Aquarius in XI having no planet in its stars signifies II, VII, XI, X 1 & 8th through Mars, its star lord. So she continued to enjoy her material status, but as Venus in the Sub of Mercury owning VI in IX and connected to Capricorn through its star Lord Sun, tells her incestuous unions, since Venus is connected to Saturn being in Aquarius, Mars as star lord and again Capricorn through its Sub Lord Mercury and this combination confirms the alleged matter, Let me turn my attention to the 7th cusp of the husband and discuss.

It is ruled by Saturn as Sub Lord. Saturn is in the star of Kethu in Libra 19°58'44". So Venus comes in as Kethu as node represents Venus. Saturn is in the Sub of Sun in Libra 2°40'29" so Mars comes into the picture and Mars in Libra 15° 58'9". So the VII cusp in the husband's chart reveals the character of his betterhalf.

Let me now take up the horoscope of the boy (son of her sister) allegedly involved in INCEST.

Boy born on 18-7-1972 at 1-50 PM IST at Chennai 13°04'/80°17' Tuesday; S.T. 9-26-5"; ayanamsa 23°27'31.5".

This boy is allegedly suspected to have incestuous connection with his mother's sister. Let us now explore the reasons by discussing the significations of his I, V, & XI cusps as done in the woman's case.

Here the 1st cusp Sub Lord is Kethu. Kethu as node represents Moon in Libra owned by Venus and the same Moon is in the star of Mars and signifies VII & II. Again the same Kethu is in the Sub of Rahu in Capricorn owned by Saturn in VII.

Vth cusp is found in Aquarius and the Sub Lord is Venus. Venus is in Taurus in the star of Mars and in the sub of Jupiter in Kethu star. Jupiter in II Bhavams.

XIth cusps Sub Lord in Moon and it is in Libra in Mars star and Sub of Kethu signifying II.

So the 3 cusps are controlled by Venus / Saturn, Venus / Mars, and Mars / Venus and all the three cusps are directly connected with II & XI; IInd and XI respectively and this has incited the boy to commit such a grave mistake of INCEST.

It is stated that II & XI combination under Dasa / bukthi signification will bring about such enjoyments of woman under illegal ways.

Let us see if such a combination is found in Dasa / bukthi for the boy.

He is now running the major period of rahu upto 12-9-1992. Rahu in Capricorn 2°36'37" in the star of Sun in IX and owns XI and no planet in XI. So Rahu signifies IX & XI. Rahu in the Sub of Jupiter in II, and no planet in Rahu stars, so fully signifies II.

Hence this period should bring him enjoyment of other women under illegal terms.

From 30-3-89 to 24-2-90 it is Sun bukthi. Sun is in the star of Jupiter in II, Sun as owner of XIth cusp is connected to II very well. Sun is in the Sub of Rahu and in turn Rahu is in the star of Sun in IX owning XI and no planet in XI.

Hence there is strong combination of II & XI which will bring for the native good opportunity to make illegal contacts and as Rahu as node represents Saturn (his Rasi Lord) in VII owning V & no planet in VI. As alleged, he must have had incestuous union with that woman under reference.

Then came the bukthi of Moon from 24-2-90 and it is upto 24-8-91. Moon is in the star of Mars owning II & VII. Moon is in the Sub of Kethu and Kethu is in Jupiter star and Jupiter is in II; Hence this bukthi having II & XI combination should have continued such illegal enjoyment involving him in incestuous union with the woman under reference in terms of his I, V, & XIth cusps and its significations as explained above.

I feel such an act of incest with that particular women will cease to function with the advent of Mars bukthi from 24-8-91.

Let me discuss. Mars is in IX and is in the star of Saturn in VII owning V (no planet in V). So it signifies V & VII. Mars is in the Sub of Venus in VIII in the star of Mars owning VI & VII in IX This combination definitely tells his craving for illegal enjoyments. As these planets are not connected to XIth signification he will not be successful in the matter getting fructified or fulfilled. Thus it will find an end.

Good Luck

SUB LORD SPEAKS

If all the matters and happenings in a man's life, more affecting and serious one is the marital portion of life.

Marriage is a matter of more worth
Than to be dealt in by attorneyshop
For what is wedlock forced but a hell
An-age of discord and continual strife
Whereas the contrary bringeth bliss
And is a pattern of celestial peace

- Shakespeare

Astrologers do certify this as one experienced in an individual life, as one witnesses the horrible life of married one and at the same time notice the disadvantages of the bachelor's life. Summing up both sides of life enjoy advantages and suffer disadvantages.

Before marriages are concluded, both parties of bride and bridegroom consult Astrologers and DASA VIDHA Poruthams are checked and accepted.

After some years, difficulties arise between couple who come into wedlock, after scrutinising the porutham and duly found to be having minimum eight out of ten poruthams.

Then how it happens? Sri KSK gives more weight to the significations of the Sub Lord of the VII cusp and the significations of the DASA Lords of the ensuring periods after marriage.

The Sub Lord of the VII cusp gives a correct picture if he will get married or not and if so how will be the prospects, good and bad happenings duly indicated.

The ensuing periods record the timing of events good or adverse in respect of married life.

In my experience, I have come across some birth charts of the married couple having been brought into wedlock with fine poruthams, heading towards divorce.

Why? It is the weak VII cusp Sub Lord with feeble strength and significations in terms of II, or VII, or XI more signifying the detrimental houses VI, IV, X and XII. When the VII cusp Sub Lord signifies VIII indicates disharmony and disagreement and it does not negate marriage and does not threaten separation.

To add fuel to fire, the couple running the periods signifying the detrimental houses threaten separation.

Regarding married life, Sri KSK advocates looking into three houses, viz., II, VII XI with more emphasis to VII together with Venus.

The planets who signify these house describe everything in regard to the aspect a matrimony and also cause the event a marriage in their conjoint period in the Vimshottari Dasa system.

The VII is concerned with the urge for relationship and harmony and is connected with the unity of the individual on equal terms with others by partnership in marriage it tells much about the state of marriage, the number of marriages or unions one will have, the degree of success and the happiness from the marital union in addition to describing everything about the partner, her mental make up and sexual compatability.

The II is traditionally known as the house of family, its growth as well as decay. The bond of marriage, bringing the marriage partner into family life.

Besides the II house corresponds with the principle of Venus, the production and possessive attitudes of the Earthy sign Taurus

and this governs the instinctive need for comfort and security which marriage fulfills.

The XI house focusses on friendships and alignments with others in permanent associations. Who else can be the constant guide and friend, if not the life partner.

It is not uncommon that the tie of association culminates in marriage, so that the XI house fully justifies its inclusion in connection with the aspect of marriage and married life.

Venus has rule over unifying relationships and adjustment, and it is the outcome of her vibration. She has also domain over the II & VII signs of the Zodiac which have sway over affairs connected with marriage. In this respect the consideration of Venus in matters of marriage would seem to be befitting.

Now I shall discuss the birthchart of my good friend, Mr. Rao. Born on 17-6-1939 at 10-45 p.m. IST at Chennai 13°-04'/80°-17'; Ayanamsa 22-59-53.62"; S.T. 16-16-21.

At the on set let us look into the Sub Lord of the VIIth Cusp. It is Rahu and is in VIII bhavam in its own star. KSK had said as follows: "When the VII cusp Sub Lord signifies VIII indicates disharmony and disagreement and it does not negate marriage and does not threaten separation."

Further the same Sub Lord Rahu is in the Sub of Mercury in V again signifying VIII having been placed in Rahu star. As no planet is placed in the star of Mercury, again the VIII signification along with V is attained by the Sub Lord Rahu.

So it has not negated the marriage and it took place during 1968 corresponding to the major period of Jupiter and bukthi of Sun.

The Major period of Jupiter ran between 2-7-1958 and 2-7-1974.

No planet in the star of Jupiter and it is in II, owning II & XI no planet in XI). Moreover Jupiter in the star of saturn in II.

So Jupiter is a full significator of II, XI & Lagna also through stellar position.

Such a significator of II, XI should give the native a very peaceful marital life, together with high material status.

Of course he enjoys a good service life in Chennai Secretariat and has a permanent income of a middle order.

As per these significations, he should have good and peaceful matrimonial life. But he is not.

I have already indicated that he got married in Sun bukthi ie., during 1968 in Jupiter period. As I discussed Jupiter under stellar status and it indicated good marital and matrimonial life. The same Jupiter is in the Sub of Rahu. Rahu is in its own star in VIII and Rahu represents Venus a full significator of IV & VI. But IV & VI negates a happy marital life and VIII tells a disturbed affair with quarrels.

Coming to the Sun bukthi. Sun owns VII cusp and Sun is in the star of Mars in XII, owning III & X. (There are planets in III and no planet in X). So Sun is primarily a full significator of IV & X and as no planet in Sun stars, VII also. So Sun signifies VII, IV & X and this combination cannot give marriage, but some business partner only.

Then how the marriage took place in Sun bukthi. Look at the Sub Lord of Sun. It is Kethu, and Kethu is in its own star in II and so II & VII acted in Sun bukthi.

As already discussed Jupiter had VIII, VI, & IV significations through Sub and so this effect got him only a wife, but not useful to run his kutumbham at all, as she was a psychiatric patient and she never lived under normal status as a member of the family.

It was Moon bukthi from 2-11-1969 to 2-3-1971 and things have gone to the extent, that the native had to resort to issue notice for divorce, as she was so bad and unfit for family life.

The readers may note Moon is in the star of Mars in XII and a full significator of IV & VI a bad detriment for marital life being in the sub of Venus.

Next major period of Saturn started by July 1974 and it is for 19 years.

Saturn through stellar status signifies II fully and so should have given him good family circumstances. As Saturn is in the Sub of Rahu, signifies VIII being stationed at $13^{\circ}-0'-1''$ in Libra and as node further signifies IV & VI duly representing Venus posited in $11^{\circ}-0'-5''$ Taurus. Hence the DIVORCE case continued. Finally it ended abruptly by mutual consent, with more benefits in 1984, during the bukthi of Sun from June 1984 to June 1985.

Sun is in the star of Mars in XII and no planet in Sun stars and so signifies VII & IV also. These significations tell the difficult situations he had to face. But being in the Sub of Kethu he attains full signification of II and Kethu as node represents Mars a full significator of VI. These II & VI significations ended his case with benefits.

Thus ended his marital life which started in Sub bukthi in Jupiter period ended in Sun bukthi in Saturn period without any bearing on his family life. It is no plus, no minus.

These lines only force the idea that Saturn, a full significator of II could not give a family life, as it was in the Sub of Rahu signifying VIII and as node through representation signifying IV & VI which tells the detrimental status for matrimonial life and kutumbham for the native.

Let me discuss the birthchart of Sri Venkateswarn born at 12-30 night of Monday on 30-4-1956 at Srivilliputtur $9^{\circ}-31'77''-40''$; Ayanamsam 23-4-8''.

Currently the native is running the major period of Rahu from 24-9-86 and it is for 18 years.

It was Rahu bukthi from 24-9-86 to 6-6-89. Rahu is in Vrischikam 16°-27'-37" and is in the star of Saturn in x owning I & II. No planet in II. So Rahu signifies X, II under stellar signification.

Rahu as node represents Mars a full significator of XII & VII feebly. So Rahu signifies II, x, XII, & VII. Trials for fixing the marriage failed, as Rahu is in the Sub of Jupiter a full significator of VII & III (note no planet in its stars). This also could have brought about marriage, could not, Why?

Please see Jupiter stationed in the star of Mercury in IV, owning VI and no planet in VI Sub Lord signification negated the marriage, coming up.

The star lord signification of Rahu in II & X connected Sub Lord signification of VI, kept him in good service all through Rahu bukthi.

Then let us discuss the bukthi of Jupiter from 6-6-89 to 30-10-91. Jupiter is in VII and no planet in its stars, and so signifies VII & III fully through stellar status.

Jupiter is in the star of Mercury in IV, owning vi, no planet in VI and so IV & VI also fully under stellar status.

The signification of IV & VI should have negated his marriage and got him some service.

Completely the reverse happened i.e., he lost his service and got married in Jupiter bukthi and Anthara. How?

Look at the Sub Lord of Jupiter. It is Saturn. Saturn is in X in its own star and owns I & II (no planet in II). So he signifies X & II. So through Sub, Jupiter VII & III signification under stellar gave him kutumbham and marriage and as under sub Jupiter did not have any connection to VI, hence no service.

Here the Sub Lord has a subtle effect and more care is required to see in between lines.

Summing up the VII & III signification of Jupiter has been connected with II and marriage taken place.

Now, I take up another birth chart of Smt. S., born on 2-3-1938 at 2-00 p.m. IST at 13°-4'/80°-17'; Ayanamsam 22°-59'-3".

She was running the major period of Jupiter from 27-12-38 to 27-12-1954.

Jupiter in VIII and Venus is in its star. Jupiter owns VIIth cusp and no planet in VII. Jupiter is in the Sub of Mars signifying IX, I, IV.

So Jupiter is a feeble significator for bringing about marriage. Unless a strong bukthi intervenes with better significations for marital life, it cannot come up.

She got married during October, 1952 in the star of Saturn in IX and so Rahu signifies IX fully. Rahu as node represents Mars signifying I, IX, & IV.

These significations does not portray marriage in rahu bukthi and anthara when viewed under stellar significations.

Then how the marriage took place in Rahu bukthi and anthara?

Rahu is in the Sub of Kethu in XI and no planet in Kethu stars and so Rahu gets full signification of XI and as Ketu is posited in the star of Sun, III & IX also. As node Ketu fully represents Venus in IX, being placed in the star of Jupiter, signifies IX & VII. So under Sub Lord signification, Rahu attains III, IX, XI, & VII and marriage took place in rahu bukthi and anthara.

I will be happy to bring home to our beloved readers and students one more matter, that she came as the II wife. How to discuss?

Kindly look into the lagna cusp. The Sub Lord is Moon and lagna is VII to the VII. Moon is in the star of Rahu in V and it reveals nothing of the matter. Look into the Sub Lord of Moon. It is Mars. Mars is in Meenam 29°-17'-36" and it is a Dual sign and is in the star of Mercury a dual planet. This indicates the quality and she went as II wife.

This native got married on 2-2-1977. The major period then was that of Moon.

Let us discuss Moon and its signification.

Moon is in lagna bhavam and there is a planet Saturn in its star and so he is not a lagna significator and so not V also. Moon is in the star of Venus in IV. So Moon signifies IV, III & VIII. Hence the signification attained through stellar status does not portray marital life coming up in this major period. Then look into the Sub Lord of Moon. It is Rahu. Rahu is in XI bhavam. There is Mars in Rahu star and feeble significator of XI. So the Sub Lord Rahu signifies XI, II, IX & VII.

So the Dasanatha Moon is situated in the Sub of a planet signifying II, IX, VII & XI. So Moon promises marital life through sub only.

Marriage took place on 2-2-1977 in the bukthi of Venus and anthara of Venus. What is Venus signifying?

Venus is in IV and there are planets in its stars. Venus is in the star of Saturn in VI owning XI & XII (Rahu is in XI and no planet in XII). So Venus signifies IV, VIII feebly and strongly VI & XII.

Then how the marriage had taken place suddenly on 2-2-77 during Venus bukthi and anthara. Look into the Sub Lord of Venus and it is Mercury. Mercury owns VII and is in V in its own star and so strongly signifies V & VII.

So in the period of Moon who signifies II, IX, VII the bukthi of Venus who is strongly signifying V & VII, brought the marriage in Venus anthara itself.

To substantiate the efficacy and deeper implications of the Sub lord. I and Mr. Mohan, my friend do not fail to scrutinise all the birthcharts and horary as well that pass through our hands and prepare these articles for the benefit of K.P. followers and the esteemed readers of K.P. & Astrology.

Yet another birth chart, I take up here for discussion and it is of Sri Thyagamoorthy of Chennai - 99.

As this article is solely confined to marital life of the natives, I am discussing the period which brought about the marriage, only.

The native got married on 9-9-1972 and it was in his major period of Jupiter which ran between 3-10-1963 to 3-10-1979.

Jupiter is in the XII bhavam and Sun is tenanting its star. So Jupiter is not a XII significator. Jupiter is in the star of Ketu in VII and so signifies VII fully. Jupiter is in the Sub of Saturn in VII and signifies VI.

Though Jupiter signified VII through stellar, Sub denied his marriage in its bukthi (from 3-10-63 to 22-11-65).

Then came Saturn bukthi and it is between 21-11-65 to 7-6-68. Saturn is in the star of Mercury in VI and in the Sub of Rahu signifying VI (Rahu is in the star of Sun in VI).

Next came the bukthi of Mercury from 7-6-68 to 9-9-71. Mercury is in vi (there are planets in Mercury stars) and is in the star of Mars in 11, owning VII. This bukthi also has not given him marriage despite the fact that Mercury signifies II & VII as Mercury is in the Sub of Venus signifying VI (Venus is deposited in the star of Mercury is VI).

Followed by the bukthi of Ketu from 9-9-71 to 15-8-72. Ketu is in VII and is in the star of Saturn in VII owning XI. This should have got him marriage. But nothing came up, Why?

Ketu is in the Sub of venus again who signifies VI (Venus is in the star of Mercury in VI owning VI).

Then came the bukthi of Venus which it from 15-8-72 to 15-4-75. Venus is in the star of Mercury in VI owning VI and so it is a detrimental status for bringing about marriage.

But he got married on 9-9-72. Venus under stellar signification signifies fully the VI and yet he got married in this Venus bukthi and Venus anthara. How?

The same Venus the bukthi and antharanatha is in the Sub of Jupiter, a full significator of VII (Jupiter is in the star of Ketu in VII) and so the marriage came up in this bukthi and anthara.

From the foregoing discussion, the K.P. might have reached a concrete idea that Sub alone finalises the matter shown by stellar significations.

Good Luck

SUB LORD SPEAKS

In the above series, I am substantiating the efficacy of the Sub Lord in the way of delineating the results in the final form. Now the students are aware fully of the fact that even when the star lord significations do not portray the event that had come to pass, the Sub Lord gave a helping hand to indicate that event which had happened.

“Suppose there is a planet in a sign, then the planet is the source of light. It indicates the source of a result which a native enjoys by its nature, ownership, etc.

If a planet is significator of I, he gains by his own efforts and influence. If it is the significator of III through brother or publication, he gains or losses depending on the Sub. Thus the planet whose period is running, shows how one gets the result, how a result is brought about, etc.

The lord of the constellation is that which shows the native of the results i.e., in which house, the lord of the constellation is deposited and the house or houses it owns. Then the matters signified by those houses will manifest.

Suppose the lord of the constellation owns the houses III & X i.e., Mars to Aquarius - borns, Venus to Leo-borns and they are occupying 3rd house from Aquarium or Leo respectively, then the planet is Mars.' constellation for Leo-borns shows that one corresponds, interviews or make a short journey for a job. Then the favourable or unfavourable Sub denotes whether he is successful or not.

According to the principles available one cannot definitely state when one can have beneficial results and also what result one can

expect at a particular time. But by studying this Book and following the Magazine ASTROLOGY & ATHRISHTA published at Madras, one can give exhaustively the prediction including the SUB.

Further, a planet in the Sub of an Evil planet, indicates loss, difficulty, failure whereas the same planet in the same star but in the Sub of a benefic, promises success, gain and pleasure.

The lord of the constellation may indicate the matters of the VII. The planet in the Sub of a malefic causes ENMITY whereas that in the Sub of a benefic brings in harmony and happiness.

If a planet indicates business, the star lord governed by this planet shows business, and the planet in beneficial Sub promises profit, whereas that in the Sub of an evil one threatens loss.

The lord of the constellation may show any one walk of life to the native. It is the Sub which decides whether that area is advantageous or not and thereby indicates whether the planet occupying therein will after desirable results or adverse ones.

Each star indicates many matters and when a prediction is to be offered, taking into consideration a planet and its situation in a constellation, one has to give many alternatives and hence the prediction will not be of much use to the querist. But if the sub is also included then one can eliminate many of them and select a very few, out of many matters indicated by the constellation."

I may be allowed to reiterate that these series of articles are being written duly emphasising the importance of using the Sub Lord without fail, only to dispel the illusion of limiting with stellar strength only, and offering predictions; and by that you are liable to fail to give correct guidance to the consulting public.

Of course, at various instances, the matter indicated by the stellar position might have come to pass, while you will also note that the Sub Lord would have had such a signification too. Such instances have led our K.,P. followers to limit themselves without

going further in checking the signification and strength of Sub Lord. Students should be alert in using Sub Lord without fail when a nativity or horary chart is delineated.

The Doctor get married in the major period of Rahu, bukthi of Saturn during June, 1956 i.e., in the Anthara of Saturn itself.

Let us discuss the signification of Rahu. It is in the star of Saturn in II and so signifies II and IV (Saturn owns I II & IV, Moon in III and no planet in IV). As there is no planet in the stars of Rahu, it signifies V also.

Bukthinatha Saturn is in the star of Venus deposited in I, owning VII. So Saturn signifies I & VII. Rahu Dasanatha is in the Sub of Venus and so signifies II & IV (Venus is in the star of Saturn in II owning IV). Saturn, the bukthi and antharanatha is in the Sub of Kethu and so signifies XI & XIII & X. Kethu through representation gets II also (Kethu as node represents Mercury who signifies II).

The matter indicated by Saturn through stellar position is VII and being in the Sub of Kethu signifying XI & II, with the result a combination of II, VII, & XI arises in the bukthi of Saturn and anthara of Saturn and the marriage came up during June, 1956. (Here the matter of VII signification takes shape into II & XI) a favourable combination for giving marriage).

It is understood from the native that he passed MBBS during March, 1958 and it was then, the Dasa of Rahu, bukti of Saturn, and antara of Mars.

Rahu as discussed above, signifies through Sub II & IV, and Saturn through Sub XI & II.

The planet Mars (antharanatha) signifies I, VI, VIII through star (no planet in Mars stars) and through Sub II & IV (Mars is in the Sub of Mercury signifying II & IV as Mercury is deposited in the star of Saturn in II, owning IV).

So Rahu, Saturn, and Mars through Sub significations of II & IV, XI & II, II & IV, and this brought about his getting the MBBS degree, with a recognised status.

He became M.D. during 1972 in the period of Jupiter, bukthi of Saturn, and anthara of Kethu in February / March, 1972.

Major period of Jupiter is in IX in the star of Mercury in Lagna bhavam owning VII & XI. So he signifies I, XI, & VIII through star. Being in the Sub of Saturn he gets I & VII signification also.

The VII signification through Sub negated him. to have MD status during Jupiter bukthi. Subsequently during Saturn bukthi came and it is in the Sub of Kethu.

Kethu is in XI and no planet in its stars and so Kethu gets XI signification. Kethu is in the star of Sun, owning X and no planet in X, duly deposited in XII. Kethu represents Mercury it's Rasi Lord signifying II & IV.

In the bukthi of Saturn he got M.D. status as, through Sub Saturn signified X, XI, II, & IV. especially in the anthara of Kethu who also signifies XI, II, & IV.

He entered into service as Assistant Surgeon during February, 1960. Then it was Rahu major period bukthi of Mercury and Anthara of Moon.

As already discussed, Rahu signifies II & IV through Sub position. Mercury signifies II & IV through stellar position, II, IV & V through Sub Lord Rahu, who as node represents Jupiter a significator of I, XI, & VIII.

The anthara lord Moon signifies III, X, & XII through stellar position, and I & VII through Sub and thus the Dasa Lord, Bukti Lord, and Anthara Lord has acquired the combined significations of II, XI, III, & which brought him the entry into service life.

Retired from service by March, 1990 corresponding to the major period of Saturn, bukti of Mercury, and anthara of Jupiter.

Saturn signifies through its Sub Lord Kethu X, XI, & XII. So Saturn should give occupational life, plus retirement also (XII fall from status or relinquishing the same.)

The bukthi lord Mercury signifies though Sub Lord Rahu II, IV, & V (Rahu, V no planet in its stars and it is in the star of Saturn

in II, owning IV. Further, Rāhu represents Jupiter in IX owning V and signification of I as the star lord of Jupiter being Mercury in I). So full signification of I is also there and with feeble signification of IX which are service ending significations.

Anthara lord Jupiter being in IX through its lord Saturn signifies I & VII. Thus in the anthara of Jupiter, ended his service life.

Now, I like to point out, how nice it is to note that the IV cusp $2^{\circ}-11'-28''$ in Aquarius, ruled by Kethu as Sub Lord, having been placed in the star of Sun, indicates his Medical education. Students may kindly note it. (Sun is taken as Dhanvanthri).

Now I take up the nativity of a business magnate and discuss how the Sub lord indicate the incidents more well than stellar significations. Birth particulars are as under:

Currently, the native is running the major period of Mars from 21-1-1986 to 21-1-1993, when the birth chart was brought to me by his sister of consultation.

Let us discuss the signification of Dasa Lord Mars.

Mars owns II & VII and is in XII. No planet in its stars. So Mars signifies VII, II, & XII through occupational status. And it is in the star of Moon in X, owning X and so Mars is a significator of VII, II, XII & X under stellare status. Mars is in the Sub of Mercury a depositor of XI bhavam. No planet in Mercury stars and it owns IX & XII. There are planets in IX & XII. And Mercury is in the star of Venus in XII.

Hence through Sub, Mars signifies XI, I, VIII, & X portraying the matter of his good occupational status and financial affluence, business faculties and very long journeys, having boosted his material portion of life, by its Sub Lord signification of XI & I and at the same time cut short his life through an accident under its signification of VIII & XII, & XI also.

Let us scrutinise how and when it took place.

When the birth chart came under scrutiny it was the bukthi of Ketu running, between 18.7.1990 and 15.12.1990. Ketu is in III bhavam (movement in short distances), in the star of Uthiradam in Capricorn portion ruled by Saturn (karaka of accidents and bones).

As node, Ketu stands for Capricorn and the IV cusp therein (CHEST).

Ketu is in the star of Sun in XI, a bhadakasthana for Libra born.

Ketu through stellar position tells more material success as it signifies XI. But as XI for Libra tells affliction to longevity.

Ketu by representation stands for Saturn signifying X through its occupation in Rahu star and Rahu in Cancer, as node acquires the X house faculties. These gave him business affluence.

But please note this Ketu is in the Sub of Jupiter in XI (there is Rahu in its star Punarpoosam). So Jupiter does not signify XI fully. But through its stellar status, being posited in the star of Venus in XII, owning VIII, involved him in a serious accident, crushing his chest bones and was hospitalised on 20.7.1990. He succumbed to it in the same anthara of Ketu and died on 25.7.1990.

Yet another birthchart of Mrs. E.J., I am introducing to K.P. followers for emphasising the fact of Sub Lord being very important to finalise and sum up the results of a Dasa or bukthi.

The native of this chart is a lady, working in a reputed private organisation drawing decent salary.

Let us see how the periods portray the position.

Now she is running the major period of Venus from August, 1974 to August 1994. You may note the position of Venus in the birthchart. It is 19°4'43", Scorpio in XI bhavam owing VI & XI. No planet in its stars, so Venus signifies fully XI and feebly the VI, as Ketu is deposited there.

Venus in the star of Mercury in II, owning VII and X and there are planets in VII & X.

So, summing up, Venus signifies II & XI fully and VI, VII, & X feebly, stellar wise.

Anyway, Venus shall give her material and matrimonial happiness in terms of II & XI significations. She is having good salaried service, no much wants on the material side.

But, she has very bad matrimonial life, at times (why, too often) heading towards DIVORCE.

Why?

Now, look into the Sub of Venus. It is ketu. Ketu is in VI and in the star of Rahu in XII and so Venus gets the XII signification through the star lord of Ketu, the Sub Lord of Venus the major Dasa Lord.

This Rahu being a node, represents Jupiter in VII and Saturn is in Jupiter star and so Jupiter does not retain its VII signification. Jupiter owns lagna and IV cusps. There is Sun in lagna bhavam and so Jupiter signifies IV only, fully.

Hence the planet Rahu a prime mover of Venus period, had fully gained the IV signification. IV is always bad for happy and peaceful matrimonial life, as it is 12th for V which unites the couple.

Finally it can be deduced that the major Dasa Lord Venus gets XII and IV significations through its Sub Lord Ketu. VI, XII & IV do not promise a happy matrimonial life and on the contrary these significations would give a disturbing atmosphere between the couple all through Venus period.

This I hinted her when she came for consultation during September, 1990.

DIVORCE is ruled out, as bukthi lords Mercury and Ketu signify II, XI, & VII respectively through Sub.

How?

Mercury is in the Sub of Venus in XI and no planet in Venus stars and Venus in the star of Mercury again in II. Ketu is in the Sub of Saturn in X and there is Mars in Saturn stars. Saturn is in the star of Jupiter in VII. So DIVORCE is ruled out. (XI, II & VII).

SUB - LORD SPEAKS

I desire to discuss the importance of the usage of Sub Lord for sometime more. only to see my beloved KP followers make it a point to decide the results only after scrutinising the Sub Lord of the planet and its significations.

Reveting to the subject, I have a horary chart which I discussed on the evening of 4-1-1991 at 6-30 p.m. as my friend Mr.Rao approached me with the following query.

“Will I be losing the occupation of the building as there is a heavy pressure for my eviction” and gave the No.136 (1-249).

He explained me personally how the owner is an unlawful a forceble person and none can stand before him, so fierce he is. “God alone should help me as at around 7 a.m. tomorrow I have to hand over the keys.

Such was the pitiable status of my friend Mr.Rao.

I Worked out the horary at once at 6-30 p.m. 4-1-91 at Madras 13 4’/80 17’ and it is as follows.

Cusp	Sub lord	Cusp	Sub lord

Moon	Saturn	Saturn	Jupiter
Mars	Saturn	Rahu	Mercury
Mercury	Kethu	Kethu	Saturn
Jupiter	Mercury		

My friend Mr.Rao gave a colour to his matter being very serious as the owner of the building is as unruly element. He says that it is not easy to deal with him.

In the horary. You can notice the VII cusp Sub Lord is Mars, duely posited in the Sub of Saturn. This tells his mental make up of Mars-Saturn nexus, also explains a rowdy and unlawful element in the person of his opponent, the house owner.

Query is simple, as it is a matter connected to IV cusp.

Firstly I looked into the Sub Lord of the I cusp. It was Sun. Sun is in the III house and owns XI. There are planets in Sun's stars. So it does not signify either III or XI. It is in the star of Venus

in III, owning I. No planet in Lagna. So Lagna will give him the strength to stand the trouble (I & III & VIII also), Sun is in the Sub of Rahu in III and thus signifying III, & XI both detriment for the opponent. So Lagna is strong to face the situation.

Then the Sub Lord of the IV cusp has been scrutinised. The Sub Lord is Saturn. Saturn is in III and there are planets in its star. i.e. Kethu. Saturn is in the star of Sun in III. So Saturn signifies III fully.

Here the matter is continuing the occupation of a house, and as the Sub Lord of the IV cusp Saturn signifies III, he must leave the house forthwith and he can no longer continue to occupy it. This is the stellar strength of the Sub Lord of the IV cusp.

The Sub Lord strength of the planet Saturn alone will finally indicate the result. Saturn is in Sub of Jupiter in X and no planet in Jupiter's stars. So Saturn at the first instance signifies X & VI (Jupiter owns VI and no planet in his stars). The same Jupiter is in the star of Mercury in II. So, through Sub the IV cusp Sub Lord signifies VI, X, & II.

This tells the occupation of the house is continued and I assured Mr.Rao that there is going to be a sudden change in the matter not at the eleventh hour as we say in a general manner, I told him matters will take a different turn in your favour at the 11th minute.

Before sending him away, I looked into the X cusp as it is the IV from VII. The Sub Lord is Jupiter.

No Planet in Jupiters stars and it is in X. This is stellar status. But Jupiter is in the star of Kethu in IX. This is detrimental status for him, the opponent and house owner, and a supporting point for Mr.Rao.

Hence, I finally declared to my friend Mr.Rao that there shall be a sudden support for him in the matter and he will continue his occupation of the house.

As predicted, there was a dramatic change. The owner as planned took away the keys of the house taking possession and

was about to go away by 7 a.m. when the sudden intervention of a Police Officer shattered all his plans and he was obliged to return the keys and hand over the house back to my friend and had to leave the scene losing his face.

Now, a word to my beloved followers of KP. I am obliged to write these articles after the matters have come to pass. Some are of the opinion that I am doing post mortem. If you please look back to 1970 & 71, our GURUJI used to write articles under caption "POSTMORTEM NECESSARY" and you could notice such articles by our GURUJI and when queried about that, Gururji told me then that only through such articles we can substantiate the efficacy of the significations and its usage by discussing that matters that had already happened.

So with that in mind I have taken to write these articles to force the utmost importance of the usage of the Sub Lord to the minds of KP. students. If I am committing mistake, I may be pointed out and I am bound to our beloved KP. followers to answer them, by giving them satisfactory reply.

Further, I receive letters about the efficacy of our KP. system from a particular gentlemen and he writes to say that KP. is artifice. Poor man, why should he KP not infallible? He can well the time for some useful purpose instead of fighting futile to prove KP. is infallible. Perhaps he found infallibility in old Traditional system. I too know about the Traditional system as I am an Astrologer from May, 1937. He cannot tell me about it. He can look to better work than wasting his time by writing pages after pages in letters.

Now, let me take up a natal chart and discuss the efficacy of Sub theory.

The native is running the major period Rahu from 1973 July to 1991 July. She lives in the vicinity of my place, came for consultation during 1983 beginning. By then, she had completed her College education and was after some job. She presented her birth chart duly worked under KP by one Mr. Rajagopal Nadar, and ardent KP follower in the locality.

I was scrutinising the birth chart and in that you may notice the major Dasa lord Rahu in IV and planet in tis stars. It is in the star of Moon in VIII, owning III. Her query was about her getting into a good service. The Dasa Lord had no Xth or VIth significations at all and I was about to tell her a negative reply.

I like to tell readers and KP followers that planetary Sub Lord tells the nature of fructification of the matter, but the cusps of houses that tell such matters, tell the quantum of such matters through the signification of its Sub Lord. This is the difference. For example, a planet signifies II through its Sub and that tells it can give money. How much? The Sub Lord of the II cusp tell this. The quantum is assessed though the strength of its signification. This is how we have to proceed.

Reverting to the matter, he said the Sub Lord Saturn is in VII and placed in the star of Ketu in X bhavam. Saturn owns IX & X. So he said she is getting employed soon, the current Rahu period will give stability, occupationally and maritally as well.

Ketu, the star lord of the Sub Lord Saturn, being node, represents Jupiter in VI and so Kethu acquires the VI, VII matter, both put together by one planet. Hence in Rahu period, she should get good service, marriage as well, he stressed.

At the moment, she was running the bukthi of Mercury from July 1981 to January 1984. Mohan also added with optimism that before the end of this bukthi she is getting good service.

WHY? Mercury is in XII, in the star of Sun in XII. Then How? Mercury is in the Sub of Saturn in VII signifying X, VI & VII. Almost in the fag end of this bukthi she entered into service in Madras TV Station on 23-11-1983.

It was Venus bukthi from 8-2-85 to 8-2-88. Venus has no planet in its stars and is in Lagna and is in the star of Jupiter in VI, owning VII, VIII & XI. The significations do not portray and foreign travels when considered under stellar status. Kindly note the Sub Lord of Venus; happens to be Mercury, in turn in the star of Sun in XII. In this period she went to GULF on 13-6-1987 to join her husband there under long sanctioned leave.

During Sun bukthi ie... from 8-2-88 to 2-1-89 and Moon bukthi from 2-1-89 to 2-7-90 she was here attending office with a happy service life, in a confirmed status.

Yet again another birth chart I shall discuss and point out how Sub Lord gives a helping hand in delineating the matters in in terms of its significations.

Jupiter	Rahu		

Mr Taj Bhai started his Rahu period in his age of 7 and ended at his age of 25. How is Rahu?

Rahu has not planets in its stars and is in VII (Gemini 18 41' - 48') and so Rahu signifies VII fully. As node it represents Mercury in X. (No planets in Mercury stars) So Rahu attains X signification through his representaion as node.

Rahu signifies V & XII through Sub Lord Moon in X bhavam. When he was hardly 17 years of age, he enterend Government service at Madras Secretariat and it was then Mercury Bukthi (from July 41 to January 44) Mercury is in the star of Mars in V owning V & XII and so it signifies XII a full detriment to settle life through service and profession. It is stellar status of Mercury.

Look into Mercury's Sub Lord. It is Venus. Venus is in X and owns VI & XI. Venus is in the star of Sun in X. This got him a permanent service in Govenment Headquarters in Fort St George in the nearer vicinity of biggest Administrative Heads of Tamilnadu Government, during November, 1942.

In the month of August, 1950 the native was on the brink of getting arrested by Police, as he was involved in a very serious trouble; would have been criminally implicated, if providence did not give him a kind helping hand. It was Mars bukthi in Rahu Dasa. Mars bukthi is between June 50 and July 51.

His name was connected to the sudden death of boy and it was coloured as suicidal one. Mars owns V & XII and is in V and Mars is in the star of Venus in X owning VI XI. So Mars being a feeble significator of V & XII, still has a very good benefic significations of X, VI & XI.

Through Sub, Mars signifies X, V, & XII strongly (Mars is in the Sub, Mercury in X, with no planet in its stars and owns VII, VIII, & X). So Mars through Sub signifies X, V, XII, VII, VIII fully. The bad combination of V, VII, VIII & XII through Sub had given him agonistion situation in that bukthi, the lone X signification through Sub extricated him from the trouble finally and without a trace of bad name.

His father's demise was during April, 1964 coinciding with Mars bukthi in major period of Jupiter. Mars bukthi was running between 15-3-63 and 21-2-65. Mars is in the star of Venus in X and Venus owns IX & X in terms of IX of cusp. So in terms of stellar position Mars cannot bring about the demise of father, as no bhadhakadhipathyam is coming in and should well protect father's life to continue, as IIIrd signification is there. But, Mars in the Sub of Mercury alone brought about the demise.

How? Mercury has no planet in its star in X. X is a marakasthana for IX. As Sub Lord Mercury draws strength through its stellar status, Mercuring being in the star of Mars in V, owning V. Vth is the IX from IX, which is Leo. For Leo (Sthira Rasi) IXth (Aries) is Bhadhakasthanas have combined for IX and it is derived by Mars, the bukthinatha through its Sub Lord Mercury alone. Hence the demise of father in Mars bukthi. Mars Anthara itself. As Dasa Lord Jupiter also signifies II & V through Sub. So demise of father.

Mr. Taj retired from his service at Secretariat on 31-12-1985. On that day it was Jupiter bukthi in Major Saturn period. Jupiter is in the II and owns I & IV. There are planets on Jupiter's star. Jupiter is in the star of Mars in V, owning V & XII. This tells end of service. Jupiter is in the Sub of Rahu in VII signifying VII. As node Rahu represents Mercury in X (No planet in Mercury stars) and so signifies X, V & XII Repetition of V & XII through Sub of Jupiter, owning Lagna retired signification of Mercury (representation fo Rahu the Sub Lord of Jupiter) Mercury being in the star of Mars signifying X through Venus attains VI & XI, saw him retired with all happiness and without any blemish.

SUB - LORD SPEAKS

In continuation of my above series, I take up discussion of a girl's horoscope, how the signification of the Sub Lord tells the matter (what is now happening)

Chi.Rajalaksmi. born on 21-10-1967 at 3-15 p.m. IST at Madras 13-4/80-17'/Ayanamsam 23-22'-30.

II 23-32-9 Saturn (R) 14-17-23	Rahu 4-26-47 Moon 24-21-2 III 25-32-9	IV 22-32-9	V 18-32-9

Planet	Sub-lord	Planet	Sub-lord
Sun	Venus	Venus	Rahu
Moon	Mercury	Saturn	Rahu
Mars	Moon	Rahu	Moon
Mercury	Saturn	Kethu	Venus
Jupiter	Rahu		

Now, this girl is running the major period of Mars from 13-4-1987 for 7 years.

Mars is in Xth house and there are Sun and Kethu in its stars/ So Mars is devoid of Xth signification. Mars is in the star of Kethu in VIIIth. Hence, Mars is branded as a full significator of VIII and so Mars period is rendered useless of material benefits.

In this period only, she passed B.Sc., and graduated without failure during Rahu bukthi, between 10-9-88 and 28-9-89. Then successfully qualified in Hindi aslo, and got a permanent job during the beginning of Jupiter bukthi, from 28-9-89 to 9-4-90. The period of Mars from 13-4-87 for 7 years, which signifies VIII fully has been giving these results during his period.

How? is the question.

Now, look into the Sub Lord of Mars, the Dasa Lord. It is Moon, Moon is in II and no planet is in its stars and Moon owns VI also. So Moon is a full significator of II & VI. Moon is in the star of Venus on the VIIth cusp. duly owning IV & IX cusps. So, finally moon signifies II, VI, IV, IX & VII. Mars in the Sub of Moon should give her good education and stable permanent service.

In Rahu bukthi, she was graduated. Node Rahu is in the star of Kethu in VIII, and in the Sub of Moon and signifies II, IV, VI, & IX. This has given her successful education with graduation.

With the beginning of Jupiter bukthi, she entered a lucrative, and permanent service in LIC. Discuss Jupiter. It is in VI and there is Mercury in its star. So it is not a significator of VI, II & XI. It is in the Sub of Rahu and it is posited in II and no planet in its stars. As Node Rahu represents Mars and gets the signification of X aslo. Rahu is in the star of Kethu in VIII. In essence, Rahu has the signification of II & X which gave her service in Jupiter bukthi.

The parents of the girl consulted Sri Mohan in my presence regarding her marriage. He predicated that she would get married in Saturn bukthi, between 4-9-90 and 13-10-1991, preferably in Jupiter Anthara (from 20-8-91 to 13-10-91)

Discuss Saturn. It is in the Sub of Rahu, signifying II & VIII and through Kethu its star lord gets VIIth signification also as Kethu represents Venus in its own star on the VIIth cusp (VIIth cusp is in the Sub of Rahu and Venus is also in Rahu Sub).

Hence Saturn attains full IIInd, VIIIth & VIIth through Sub and so marriage is predicated. Sri.Mohan chose Jupiter anthara as is in the Sub of Rahu and so again II, VII & VII repeats.

Let me take up another chart for discussion, the birth chart of Sri Jayaram (Papi). Born on 16-4-1955 at 11-52 p.m. IST at Chennai 13-4'/80-17'. Ayanamsa used 23-13'-27'.

The native of this birth chart is now running the major period of Jupiter from 30-4-1984 for 16 years.

Jupiter is in VII in its own star and owns I & IV. Jupiter is a major significator of VII, feeble significator of I & IV. He got married in the fag end of Moon bukthi, Rahu period during February, 1983. Discuss Moon if it can give marriage.

Moon is in Langa bhavam in its own star and owns VIII and no planet in VIII. So Moon fully signifies I & VIII. But Moon is in Mercury Sub, and Mercury is in its own star Revathi, in III and it owns VII & X.

So, the signification of the Dasa Lord Rahu in Dhanus, attains the signification of VII through Jupiter and Bukthi of Moon III & VII through Sub Lord Mercury, got him married in Moon bukthi. The VIII, I signification of Moon through stellar status and Xth through Sub did not leave him without giving him agonising situations during marriage itself.

Such situations continued and he entered the major Dasa of Jupiter on 30-4-1984 and the matrimonial trouble surfaced into serious dimensions.

As already discussed, Jupiter is a major significator of VII and feeble significator of I & IV. VII should save him from matrimonial problems. No, IT DID NOT and on the contrary, his wife left him finally to her father's house and divorce case filed against him with the advent of Jupiter period, Saturn anthara during September, 1985.

Saturn is in X and no planet in Saturn's stars. Saturn is in the star of Jupiter in VII. Saturn is in the Sub of Kethu in VI.

Kethu is in the star of Mars in I, owning XII & V. Saturn signifies X, VII, VI & XII, detrimental significations for matrimonial bondage. The case for divorce was filed and a notice was received by him during Saturn anthara.

Under stellar strength, the major Dasa Lord Jupiter attains major signification of VII as he is in its own star Punarpoosam in

VIIIth bhavam. Then HOW did Jupiter widened the cleave between the couple?

Look into the Sub Lord of Jupiter, it is Venus. Venus owns VI & XI and is in the star of Jupiter in VII owning I & IV. Jupiter gets the affliction of VI, I & IV also through Sub and it really affected his matrimonial status.

The case dragged on and it ended abruptly on 27-9-90 during Mercury bukthi. Jupiter anthara. Why Mercury bukthi?

Mercury is in the star Revathi, in III bhavam and owns VII & X.

But, Mercury is in the Sub of Rahu in XII and Rahu is in the star of Kethu in VI. The significator Mercury, attaining VI & XII ended the matrimonial life during Jupiter anthara who has IV & VI through Sub.

I take up yet another birth chart, to sub theory of our great GURUJI KSK and it is the birth chart of Chi Lakshmi. D/o Sri C.C.V. Born of 1/2 February, 1972 at 4-1 a.m. IST. Tuesday/Wednesday at Vellore 12.55/79-11.

The parents of the girl Lakshmi consulted me about her education and other prospects.

Current major period of Sun which is to end by 1-3-91 was discussed. Sun is in II in the star of Moon in IX. Sun is in the Sub of Mercury in I signifying II again. So, I declared that this period had given her good education in terms of II & IX. As Moon, the star lord of Sun owns VIII and as there is no planet in VIII, I surmised some health trouble for her.

In the process of discussion, as I indicated the health matter, the parents were gazing at me as if they are expecting some more information. Without looking into the future period I was discussing Sun period and its efficacy as it attains II again through Sub, which brightened her prospects in her educational life.

In the meantime Sri.Mohan, who looked into the chart and discussed the major Dasa of Moon due to start shortly on 1-3-91. He said moon is in IX in the star of Venus in III owning VI & XI and so it is a fine period for progresing the education and other prospects. But, also dragged his words that Moon owns VIII and is in the Sub of Mars in IV and owns XII and has no planet in its stars. Further,

Mars is in the star of Kethu in VII in Cancer and as Node signifies VIII also as the cusp is in Cancer.

He openly told the parents that there shall be some serious ill health for the girl and that would end up in sugery during the above Dasa and bukthi, between 1-3-91 and 1-1-92 preferably in Rahu anthara i.e., between 4-4-91 and 19-5-91. Why Rahu anthara?

Rahu is in the star of Moon in IX owning VIII and no planet in VIII. Rahu is in the Sub of Mars in IV owning XII and no planet in Mars stars. Again Mars is in the star of Kethu in VII in Cancer which contains VIIIth cusp.

Surgical treatment will be there and it will be successful as Rahu the anthara lord is a full significator of Logna, as there is no planet in its stars.

To my astonishment, the parents were magnaimous to openly accept the prediction starting that the girl is suffering from a serious ailment in her head portion and a major operation is already fixed by Doctors to be conducted during 4th week of April, 1991.

This confirmed our coviction in this theory of our great GURUJI and were are emboldened to talk aloud that Sub Lord SPEAKS so well.

SUB LORD SPEAKS

With the blessings of our Guruji Sri KSK. I am successfully progressing in my series "Sub Lord Speaks" and I hope I will continue to force this matter what our Guruji has left this in 1972.

Last week I got a letter from Mr. C.S. Tiwari of Kanpur questioning the authenticity of the Ayanamsa being used by me and he added to say that I am deviating from Sri KSK and his Ayanamsa. He also drew my attention towards the book Reader No.1(K.P) Pages 55 to 57. I wrote back to him duly pointing out that I am a strict follower of Sri KSK and his principles; and required of him to work out Ayanamsa on those lines that our Guruji had directed strictly, viz, (1) use the rate to precession every year of NEW COMB being 50. 2388475 seconds, (2) he advised to take the year of coincidence of both the zodiac being 291 AD.

Any body using the above directions of Sri KSK is liable to arrive at the Ayanamsa, I am using viz. 5 minutes and odd higher.

Reverting to the matter, now I take up the horoscope of Chi G.V.R. who is a student of a college and he had dire necessity to have a motor vehicle and he got it in March' 91.

Let us discuss the significations of his period on the day he got the vehicle.

He was born on 17-10-1967 at 7-16 p.m IST at Chennai 130 - 04' / 80° - 17 Ayanamsa used 230 -23'-20".

The native is now in the major period of venus from April 1986 for 20 Years:

Venus is in IV in its own star and owns II & VII and no planets therein. So it Signifies IV, II, & VII. Venus bukthi is from April 86 to August 89. In 1986 he felt dire necessity for a vehicle, and despite the II & IV signification of Venus through stellar did not favour him with this comfort? WHY?

Venus is in the Sub of Sun in VI, owning V without any planet in its stars, and so Sub signifies VI & V. Sun is in the star of Mars in VIII, owning I and no planet in I. So Venus through Sub signifies I, VI, V, & VIII and these does not confer him vehicular or household comforts.

Next, moving to Sun bukthi which is between August 89 and August 90, let us discuss the significations of Sun in the birthchart.

Sun is in VI and no planet in its stars and it signifies VI & V and Sun is in the constellation of Mars in VIII owning I. So stellar-wise Sun signifies I, V, VI, & VIII. Sun is in the Sub of Mercury and so signifies IV & IX and as it is in the star of Jupiter in IV owning IX & XII. In fact, he got in possession of one old motor vehicle which too often went out of order and gave much trouble and is in the shed, unused. Now, it is Moon bhukthi from August 90 to April 92. His request to his father got fructified during March 91 and he was provided with a brand new motor vehicle during March 91.

The students may note that the signification of Moon are III, VI & XII. HOW? Moon is in XII and no planet in its stars and it owns IV and there are planets in IV. Moon is in the star of Mercury in VI owning III & VI. This is stellar status and the significations duly portray a negation to purchase of new vehicle and detrimental to vehicular or household comforts (III X XII).

Then, how he got a new motor vehicle costing to the tune of Rs. 11,500/-? Here the Sub Lord Speaks.

You may notice that the Bukthinatha Moon is in 20°-57'-50" in Pisces and it is in Venus Sub. In the birth chart, Venus owns II & VII and is in Leo 16°-1'-49" ie., Pooram star and it is in IVth bhavam. Venus is in Leo 16°-1'-49" in Sun Sub and Vth cusp is in 16°-18'-53" in Leo in Moon Sub. So it is construed that Venus is in IVth bhavam only as these are in different Subs.

So Venus signifies II & IV fully, in whose Sub, Moon is situated.

So inspite of Moon's stellar significations of III & XII a direct detriment to vehicular and household comforts, Moon could give him a very new motor vehicle in this bukthi.

One more matter to add in this connection. The same II & IV signification of Venus the Sub Lord of Moon, the bukthinatha is giving him a new house also, the construction of which is underway from 14-3-91 and house is intended for him only as indicated by his father.

Further, Venus being the major Dasa Lord, it is noticed from the beginning of the period i.e., from April 1986, the boy has become a regular Cricketeer and one of the State League players.

You may ask, how Venus being in its own star in IVth house had connected him to Sports?

Here you must look into the Sub of Venus. It is Sun and it is the owner of Vth cusp and is in VI having no planet in its stars and no planet in Vth bhavam. So sun the Sub Lord of the Dasanatha Venus signifies V fully and V stands for Sports, here Cricket.

The boy is a regular player of Cricket from April 86 and is acclaimed to be a good batsman.

A word to the readers of this Magazine K.P.& Astrology I am getting enquiries why I am not discussing the Cuspal Sub Lord.

My reply for them is as follows :

I had already written many articles on this point in Astrology and Athrishta and a detailed one during 1984 under caption "The Cuspal Sub Lord and its Impact on dasa Effects". So they may again read that article to widen their knowledge on cuspal Sub Lord.

Further, I may like to advise the students of KP that Sri KSK had time and again stressed upon the point that stellar signification of a planet tells purely the matter, the Sub Lord decidedly points out if the matter fructifies or not and in what direction and depth. And the cuspal sub lord is very different to tell the quantum and density of such matters as sanctioned by the strength of the sub lord duly controlled by its star lord.

I feel I have explained in a divisible manner about star lord, sub lord of the relevant planet and cuspal sub lord representing those matters shown by the significator of the relevant Bhavas.

IX comes only when one goes above graduation and also when he takes up research, etc. Of course XI is imperative for fulfilment of desires. I like to tell him, he should understand that II also will give the desired effects as it tells about the owning of anything. So it is not a hard and fast rule that XI alone is a must, to make anyone well educated to higher standard.

I have come across many a horoscope without the support of XIth signification, the natives are graduated and post graduated and make successful research also and if you look into it, II is found there.

Now I take up the horoscope of Sri Sridaramurthy born at 10-20 p.m. IST advanced time (corrected 9-20 pm) on 16-9-1942 at Trivellore (Chennai) 13-9/79-57 Ayanamsam 23-2-20. Balance in Saturn period at birth 0 years; 6 months; 17 days and the birth chart is as under.

The native of this birth chart Sri Sridharamurthy is a big Officer in a Nationalised Bank. He entered in Bank service during 1965 in the major period of Kethu and in the bukthi of Saturn which ran from 27-2-65 to 6-4-66.

Saturn is in Lagna bhavam and Moon is in Saturn star Anusham. So, Saturn is forfeited to signify Lagna, X & XI. As it is in the star of Moon in VII, owning IV. Saturn signifies IV & VII under stellar strength. But he has entered service in this bukthi only. How?

Now look into the Sub Lord of Saturn. It is Mercury. Mercury owns VI and it is posited in VI. As there is no planet in its stars, it fully signifies VI. His Bank service started in the Saturn anthara itself i.e. by middle of March, 1965 and the signification of Saturn as above and it is connected to house of service through Sub and Sub alone.

By 4-7-1987 this Officer started his major period of Sun and it is for 6 years.

In this birth chart Sun is in 8-6'-1 in Virgo corresponding to Vth bhavam. So Sun is in its own star Uthiram in Vth bhavam and owns Vth cusp also. It is stellar status of Sun and he signifies fully Vth bhavam. So with such a signification one should lose service of serious matters in the venue of service like suspension of avoding venue of service apprehending trouble from co-workers. It has not happened.

In the meanthime I like to introduce one matter of seriousness. In the previous period of Kethu bukthi (Venus major period) did run from 4-1-86 to 4-3-87. During Kethu bukthi he was involved with some very serious matters to the extent of losing job. Let us discuss Kethu. Kethu is in the star of Rahu in IV. So IVth being a detriment to Xth, the house of profession. It had given him lot of agonising situations. The same Kethu is in the Sub of Jupiter III in the own star, it has given a protection though the trouble continued, but transferred to Hyderabad.

With the advent of Sun period March, 1987 the matter settled and pass dawned.

As discussed above, Sun signifies V fully a detriment to service. Then how is settled the matters pertaining to service Look into the Sub Lord of Sun. It is Rakhu and Rahu is in the star of Kethu in Xth bhavam. As node Kethu fully represents both the house of Saturn i.e. X & XI and Saturn is in Lagna. Now, Sun period is upto March 1993 and he is enjoying higher status in Bank as a Regional Manager. He is my close relative and so I know his position in Office.

Next I take up another nativity of Sow Radha, D/O Sri Venkatachari. Sow Radha born at 1-30 am. IST on 30 June/1st July. 1967 at Chengleput 12-42/80-1 Ayanmasa used 23-23-20 and the birth chart is as follows.

The father of the girl Sri Venkatachari consulted me during May, 1990 when I had predicted that she will get married shortly during October / November 1990 i.e. when sun be transits the VIIth bhavam corresponding with Jupiter bukthi, Venus anthara It did to pass and marriage celebrated on 31-10-1990. Let me discuss the significations of the period brought about the marriage. i.e. Jupiter and Venus.

Currently it is the major period of Venus from December 78 to December 98. Venus owns II & VII and is in IV. No planet in its stars and so it signifies IV, II & VII. It is in the Sub of Saturn in XII and Saturn is in the star of Mercury in III owning III & VI. As there is a planet in VI Saturn gets Signification of III only by the

occupational strength of Mercury. So Venus major period can give marriage, with some delays.

The bukthi lord Jupiter had brought about the marriage. Let us discuss, how?

Jupiter is in IV in the star of Saturn in XII owning X & XI and so signifies XII, XI, as X Here XII negates the marriage and XI gives positive step in this direction feebly as it is routed through XII. With these signification marriage cannot be envisaged.

So, I looked into the Sub lord of Jupiter and it is Rahu, and it is in Lagna, there are planets in its stars.

Rahu is in Kethu star, and Kethu is in VIIth bhavam. Hence the Sub Lord of Jupiter signifies fully VII through its Sub Lord status.

Hence marriage had been concluded in Jupiter bukthi, in Venus anthara and Venus as discussed above, fully signifies IV, II & VII as there are no planets in its stars.

Yet another horoscope I give below to substantiate the efficacy of the strength of Sub Lord of planets in deciding the fructification of matters.

Sow Savithri (my grand daughter) was born at 4-05 am IST on 10/11-4-1966 at Madras 13-04 / 80-17 Ayanamsa 23-22-30.

The horoscope is as under:

II 27°20'25" Sa 27°13'31" Sa 0°15'35" Me 1°20'10"	Mars 1°27'18" III 28°20'25"	Rahu 3°59'11" IV 25°20'25"	Jupiter 2°23'28" V 21°20'25"

XI 21°20'25" Moon 6°52'44"	X 25°20'25" Ketu 3°59'11"	IX 28°20'25"	VIII 27°20'25"

Planet	Sub-lord	Planet	Sub-lord
Sun	Jupiter	Venus	Saturn
Moon	Rahu	Saturn	Moon
Mars	Venus	Rahu	Saturn
Merc	Rahu	Kethu	Saturn
Jupiter	Kethu		

The girl got married on 19-11-1987, corresponding with the major period of Venous running from September, 1969 to September, 1989 in the bukthi of Mercury from 2-9-85 to 2-7-88.

Venus is in the star of Rahu and so signifies III and it is a good signification for marital matters and no planet in its stars and so XII also and as in the Sub of Saturn signifies IV & XI. So the signification of XI gives a strength for marital life only when a suitable bukthi signifying VII comes, the marriage comes up. As the marriage had taken place in the bukthi of Mercury, then Mercury should have significations required for marriage ie II & VII.

Let us discuss what Mercury signifies. Mercury is in Lana bhavam and owns V & VIII. There is Sun in its star and so it does not signify V & VIII. Mercury is in the star of Jupiter in IV, Jupiter owns II & XI. No Planet in XI. So Mercury signifies IV fully along with XI. This will not bring about marriage, as IVth signification is a detriment in this direction. Then how it had taken place in this bukthi of Mercury?

Now look into the Sub Lord of Mercury it is Rahu. Rahu is in the star of Sun the IInd cusp (as Sun and II Cusp are in and the same Sub of Jupiter) owning and planet in VII. Through Sub Lord Dasa Lord Venus has XI as its, signification through its Sub Lord Saturn. Hence Mercury bhukthi the entire combination of II, VII & IX have come up and marriage taken place in this bukthi.

Just a couple of months earlier to the marriage date, Mr. Vaikari Ramamurthy had visited my house. As I was very eager to take up

the marriage matter of my grand daughter, I have just shown the horoscope and he had written the month of marriage to be November, 1987 duly discussing the above matters. Thus the dominating status of Sub Lord of prediction is substantiated here through these birth charts.

The native is running the major period of Jupiter from 27-9-88 and it is for 16 years. Jupiter bukthi is from 27-9-88 to 15-11-90. What does Jupiter signify?

Jupiter is in VIII and owns VI no planet in its stars So it signifies VIII and does not signify VI July as Sun is situated there, so a feeble VI. And further Jupiter is in the star of Rahu in Lagna in Katakam, which contains Lagna and IInd cusp. So Jupiter signifies I & II also strongly. This is stellar strength of Dasanatha and reveals good material background.

But, she suffered a lot. There was dearth of finance and it was very acute and further there was litigation with the Government in connection with house sites worth 10 lakhs. Money drained through litigation. Though there were sources of money, all were blocked and she suffered to have the basic amenities, starvation too haunted her, when she came for consulation. Inspite of Jupiter attaining the full signification fo Lagna and II the suffering was acute, why? The Sub Lord speaks.

Jupiter is in the Sub of Venus. Venus signifies VII & IX strongly and VII feebly. VII gave her many a petty quarrel with her business partners who betrayed and duped her. IX brought about the complete failure and closure of her business factory, landing the native with all round commitments. To put in a nutsherl, entire Jupiter bukthi with all her high material standards, suffered with all round troubles and acure shortage of finance. You may please note her that she is the only daughter of a Crorepathi. Then she started her Saturn bukthi on 15-11-1990.

Let us discuss Saturn. It is in VII owning VII, VIII & IX. Though feeble, the significations are not condusive. Saturn is in the star of Moon in XI owning Lagna & II. So it reveals a clearance and improvement in material position. Has the improvement been effected, we shall discuss here in terms of sub lord. She received a big legacy to the tune of several lakhs from her father during November, 1990 with the advent of Saturn bukthi. Further, she had won the litigation in connection with her house sites and she is

freelance to dispose the property worth several lakhs. The above improvement has been indicated by me when she came here during July 1990.

Now she has been allotted with a new car by her father and she is on the look out to purchase a big house in a posh locality.

How such a big material transformation she had attained now in the bukthi of saturn with the stellar signification of XI, where Jupiter with stellar signification of Lagna and II could not give her such an improvement materially.

Jupiter with all the good beneficial signification of Lagna and II had been negated to give peace, as he was in to Sub of Venus full signification of VII & II.

Whereas Saturn with an equal star signification of XI, could elevate her matter standards more than 30 times, as Saturn was in its own Sub and thus signifying XI & I fully.

This is only to emphasise that sat alone can decide and show how much the matter as shown by the stellar signification can benefit the native or otherwise.

Good Luck

SUB - LORD SPEAKS

I give below again some of his golden sentences together with page number also for those who still entertain the idea that I am over doing the matter.

Further a planet in the sub of an evil planet, indicates loss, difficulty or failure where as the same planet in the same star, but in the sub of a benefic promises success, gain and pleasure.

The lord of the constellation may indicate the matter of the VIIth house. The planet in the sub of a malefic causes enmity where as that in the sub of benefic brings in harmony and happiness. Also, the planet in the sub of an evil one threaten, loss in litigation, whereas that in the sub of a benefic indicates victory even though the constellation lord denotes litigation.

If a planet indicates business and the planet in benefic sub promises profit, whereas that in the sub of an evil one threatens loss.

The lord of the constellation may show any one walk of life to the native. It is the sub which decides whether the area is advantageous or not, and there by indicates whether the planet occupying there in will offer desirable results of adverse ones.

Page 127: For a Makara lagna native, if planet were to be CHITHIRAI and according to KP system, if it is in the sub of Saturn then the native will surely gain and be happy because there will be neither delay nor disappointment. But is the same person has got another planet in the same star just prior to it, in the sub of JUPITER, this planet even though under the sway of Mars and indicates the matter of IV and XI, yet it brings loss, failure in attempt, disappointment in life, partition and separation from partner etc as

the sub lord is JUPITER i.e. the sub is governed by the planet indication matters of XIIth house.

There fore it is necessary to note whether a planet is in the sub of planet which promises agreeable results to him or disadvantageous.

Page 128: If the planet is in a constellation denoting evil results, but the sub lord is a benefic, then even though he may suffer, yet temporarily during the period he has little relief from the adverse results.

Page 129: But according to Krishnamurthy system, the planet which is considered to be benefic by lordship offers the results signified by it, thro the planet deposited in its constellation.

Benefic planets offer the results thro the depositors in their constellation, only when the sub is also governed by benefic. If the sub is ruled by a malefic, the depositors cannot bring of favourable results.

For example to scorpio born native Jupiter rules II & V. If planets occupy anyone of the stars of Jupiter then the planet tenanted in its constellation has to offer the results indicated by Jupiter.

If the sub is governed by Lord of XI, then the person gets a child. If the sub is ruled by lord of XII, no child will be born during the period of planet in the sub governed by lord of XII.

Hence the planet is the source, constellation indicating nature of the matter and the sub is deciding factor whether matters if favourable or not.

Page 138 & 139: If a planet signifies lagna bhava and it is in the sub of the significator of 8, he meets with danger. If the sub lord signifies XII one runs away or injured and hospitalised.

Therefore constellation lord shows whom or which matter it refers. But the deciding factor good or bad,

success or failure is shown by the sub occupied by the significator.

Suppose a planet A is the significator of Ind whereas it is in the sub of VI, one borrows but if it is in the sub of VIII or XII, he lends to others or repays loan.

Suppose a planet is the significator of VII house and if it is in the sub of II or XI, one gains, there is reunion one gets married etc., If it is in the sub of the significator of XII, separation or ill health to wife. If it is in the sub of I & II danger to partners life.

If in the sub of IV, partner gains, makes money.

Thus one should note separately with each planet signifies and in which sub each planet is posited.

Let me now substantiate the above lines of our Guruji with an illustration. Below is the birth chart of Sri Sehadri who has risen to a high status of Dy.General Manager in Central services from a me class III entering service along with me.

He was born at 12-16 pm (Noon) IST on 25-1-1933, at Madras 13 04' - 80 17' Ayanamsa 22 54'-52.9'.

The native of this chart was running the major period of Jupiter dasa from 27-4-1971 - 27-4-1987.

Jupiter is in V, and no planet in its stars and so it signifies V, IX & XII.

Jupiter is in the star of Sun in X, owning V. So again it signifies X, but not V as there are planets in V.

Summing up Jupiter signifies V, XI, XII and the lord X, under stellar strength.

I know him personally while in class III status itself and it was then in the fag end of Rahu major period which ended by April 1971 and when the major period of Jupiter started he was elevated to class II status.

During this period of 16 years, he enjoyed 3 elevations and finally promoted to Dy.CME post during January 1985, as he entered Rahu bhukti, and it was an Administrative post in Railways.

Thus he rose well in this period of Jupiter which ended by April 1987 and by then he was transferred to RITES a separate organisation connected to Rlys under Rly Board.

With the significations of Jupiter such as V, IX, XII & X under stellar strength, one cannot predict such a rise unless it is well entrenched in a powerful sub with benefic signification.

Here, Jupiter is in the Sub of Rahu. Rahu is in its own star in XI and as node Rahu represents Saturn in X owning X & XI. As

Jupiter thro star signifies V and thro sub X & XI and so he had his children well educated and got them well settled occupationally.

As Jupiter signifies IX & XI also under stellar status and X & XI thro sub, has given him heavy overseas travelling and he used to tell me that he had travelled all round the world under official capacity. (Almost all European countries & USA)

As Jupiter signifies Xth under stellar status and X & XI thro he has risen from class III to Junior administrative rank in this period.

As further it was the bhukti of Rahu from 7-12-84 to 27-4-87.

Rahu is in its own star in XI and so under stellar strength. He acquires the XIth signification and as NODE represents Saturn in X and so he is a full significator of X & XI under stellar strength. As it is in the sub of Venus signifying II & IX, he was negated to get the senior administrative status though more was expected by him (IX negates rise professionally).

Then he started the major period of Saturn on 27-4-87 & it is for 19 years. It was Saturn bhukti from 27-4-87 to 30-4-90.

Saturn is in the star of Moon in IX and no planet in Saturn stars. Here under steller strength it attains IV, IX, X significations.

The native was elevated to Dy.General Manager status by June 1987 in the period of a planet signifying IV & IX which as detrimental for elevation to such a status.

Then how? Saturn is in the sub of Jupiter stationed in the star of Sun in X and so thro Sub it gets X signification and hence this elevation of enviable status.

I know Mr.Seshadri simply as a class III staff in Rlys in the early years, just equal to my status, and he has risen to Dy.General Manager status and retired I shall explain how all the planets are beneficial and elevated him materially as they were stationed in beneficial SUBS with good signification.

Stellar Strength	Planet	Sub	Strength ThroSub
IV, IX	Sun	Rahu	XI & X
X	Moon	Jupiter	X, V, XII
I, VIII, V, X	Mars	Sun	IV & IX
III, VI, IX, X	Mercury	Jupiter	X, V, XII
X, V, XII	Jupiter	Rahu	XI & X
II, VIII, IX	Venus	Jupiter	X, V, XII
IV, IX, X	Saturn	Jupiter	X, V, XII
X, XI	Rahu	Venus	II, VII, IX
II, V, VII, IX	Ketu	Moon	X

So from the break up of the above figures, you may please note that every planet except Mars, is getting at least 2 beneficial signification, thro sub and so the native had risen so well in his material life.

Good Luck

SUB - LORD SPEAKS

In my endeavour to enforce the efficacy of sublord in the way predictions, I could get many nativities that pass thro my hand for prognostication and so I do make progress in this series.

Now I take up the Horoscope of Sri, P.S., my lawyer friend, born on 3-12-1932 at 11-25 Noon I.S.T. at Ongole 15 30' / 80 6' Ayanamsa 22-56-2.

When I was initially consulted he was in his major period of Saturn from May 1971 to May 1990.

Saturn is in XII and no planet tenents its stars. Saturn owns Lagna cusp and XIIth. There is Rahu in Lagna and so Saturn is a full significator of XII.

Further Saturn is in the star of Sun in X owning VII, and it is a benefic to the extent of occupational position of life.

Let us see the sub lord of Saturn. It is Venus. Venus, having been posited in the star of Rahu in Lagna, the entire period of Saturn went on well, with good clientele (VII) as was indicated by me when he came in the bukthi of Venus.

Incidentally it was the very beginning of Venus bukthi. I checked the position of Venus.

It was in the star of Rahu in lagna in its own star, this tells his material standard and matter. Then again I looked into the sub lord. It was Mars, Mars is in the star of Venus again owning IV & IX, Venus is in IX. So Mars the sublord signifies IV only.

When asked, I told him as it was Venus bukthi and Anthra that he may purchase a car, or some property, lands, home sites and the like.

He was glad to tell me that he just then had purchased a house site in a posh locality and his errand to me was only to know when he could construct a house.

It is an intricate query.

I analysed Venus. Venus thro sub is connected to Ketu. Ketu is in the star of Venus and as node represents Sun who is a full significator of X, V & VIII. Here Saturn and XII signification, are not involved for labour and expenditure.

So I told him that construction of building may not come up in this Venus bhukthi and actually he did not get the expected amount to start construction, as indicated by him at a later date.

Then by elimination process I worked into the Sun bhukthi. Sun is in the star of Mercury in X and sub of Mercury itself and so signifying X. Hence IV signification is not found.

Moon bhukthi: Moon is in the star of Mars and so VII, III & X. Moon in the sub of Saturn signifying X & XII.

Mars bhukthi: Mars in the star of Venus in IX owning IV, but in the sub of Sun signifying X. So he cannot take up the construction of house, as sub signifying X negates construction and on the contrary sale of properties as X is the IV for purchase only. Actually Mr. P.S. sold a big common property among his brothers and got one sixth share amounting to few thousands.

On 18-12-1984 started the bhukthi of Rahu. It was miraculous to note he got a big moral support regarding money from Father-in-law and with this he started the construction of his house by January/February 1985 and Grahapravesa, done in the early hours of Wednesday on 12-11-86.

The house, looked like a palace, situated in posh-locality, Gill Nagar of Chennai.

How Rahu is connected to house construction? Rahu is in its own star Sadhayam in Lagna (Aguarius). So Rahu is a full significator of Lagna.

As he represents Saturn he gets the significations of XII, (Saturn in the XII and no planet in its star) and X also. XII tells expenditure and X stands for disposal properties. Then How?

Rahu is in the sub of Mars, who signifies IV (Mars is in the star of Venus in IX owning IX & IV) hence he had the house constructed during Rahu bhukthi, entered in Venus Anthra (from 16-10-81 to 7-4-87) on 12-11-86.

The native of this birth chart is a Cheif Engineer, by profession, has taken up the ARCHITECTURAL side of it and making huge income in THANE (BOMBAY).

The current major period is that of RAHU from 18-7-81 to 18-7-99.

Rahu is in IV and no planet in its stars, and so signifies IV fully. It had given him successful education.

Further Rahu is in the star of Moon in XI tells his material back ground and general happiness and status.

And under stellar strength, Rahu signifies III, XI & IV fully. These three significations tell his environmental status, general luck and material background and educational status.

IV & XI Promises good educational prospects. But signification of IV of Rahu, does not promise occupational stability, and on the other hand it will spoil his profession.

So, we must find out how he is well off and stable in his well-set occupational life, a ARCHITECT and has income now.

Let us look into the sublord of Rahu, the major Dasa lord now. It is Venus. How is Venus placed in the chart?

It is in Xth owning VIth cusp and Venus has no planet in its stars Bharani, Pooram and Pooradam.

Hence Venus signifies Xth fully and VIth partially (as Jupiter is in VI) and the same Venus is in the star of Jupiter in VI owning XIth. So XIth & VIth also.

Suming up the major dasa lord Rahu acquires Xth signification thro Sub and so Rahu's IV is transferred into Buildings, Xth successful occupation and this being Venus (Beautifying) He is a fullfledged Architect in the region of Thane.

Currently he is running the bukthi of Mercury from June 89 to Jan 92. Mercury is in IX and it is in the star of Mars in XII. owning XIIth cusp. As per stellar signification, the native should have suffered heavy loss and faced failure occupationally also. This is not the case here. He is having good practice and heavy clientele. How?

Mercury is in the sub of Venus, situated in Xth bhavam without any planet in its stars and owns VIth cusp/ Hence the result. That is how we should assess the strength of the planet.

One more chart, I shall discuss to emphasise the efficacy of the signification of sub lord in finalising the prediction.

The native of birth chart is Mr.Raghu ram of Perambur, Madras and he was born on 26-9-1959 at 4-30 pm IST at Arni 12-40'/79-19'.

Last year roughly during January 90 the father of the native, SRI.BHAVAM NARAYANA came to me for consultation.

I checked up the horoscope and enquired him of his query.

Marriage of the boy was his answer.

The native of the horoscope was running his major period of Mercury from 24-3-89 and the swa-bhukthi extended upto 21-8-91.

Invariably one or two students of KP will be with me and one of them was asked to discuss the matter and it went as follows:

Mercury is in VIII in the star of Moon in V owning VIth cusp and so marriage cannot take place in Mercury bhukthi was the students contention.

Mercury in the star of Moon in V owning and no planets in Mercury stars and V Mercury signifies V, VI & VIII.

VI & VIII will aid marital matters and they do not spoil it as Vth is for love and happy occasions like marriage and VIIIth for sexual connections and allied matters and so one should not completely drop these significations as a negative point.

And further he asked the students to take up the sub of Mercury and decide then after.

The Sub is looked into and it is Saturn. Saturn is in the star of Kethu in Pisces. Ist bhavam and as Node it represents Jupiter and hence the sub lord gets II, XI & IX significations thro Kethu.

So in Mercury buhkti, marriage cannot be ruled out.

Mohan took the elimination process in terms of the anthras.

At the moment of discussion it was Venus anthra (from 17-9-89 to 12-2-90). Venus is in the star of Kethu in I and Venus again in VIth bhavam, having no planet in his stars and Venus in the sub of Rahu stationed in the star of Moon owning VIth cusp. So marriage in Venus anthra is ruled out. Next Sun anthra was discussed. This is from 12-2-90 to 25-8-90. Sun is in its own star Uthiram deposited in VIIth bhavam duly owning the VII cusp also. This is an encouraging factor and so the student at once jumped stationing the marriage shall take place in this anthra. Mohan shouted at him stating that it can never bring about the marriage why?

Sun, even though is a very good and full significati or of VIIth under stellar position which stands for marital matters only, still it is powerless for bringing about the marriage why?

Sun is in the sub of Venus in VIth owning IV & IX. No planet in Venus stars. There is Jupiter in IX. No Planet in IV. So ultimately Venus is a full significator of VI & IV, both negate marriage and thus Sun is made powerless to bring about the marriage.

Then Moon Anthra is taken up for discussion and it is from 25-3-90 to 7-6-90. Moon is in V & owns VIth cusp and is in the star of Jupiter in IX and so signifies IX, II, XI Moons significations also attracted to tell that marriage may be final in this Anthra. Mohan rejected this also why?

Moon is in the sub of Saturn, signifies lagna bhavam and having been placed in the star of Kethu as node representing Jupiter in IX gets the IXth signification it was argued by him that in terms of IX, only betrothal can take place in this anthra.

Mars anthra is taken up and it is from 7-6-90 to 28-7-90. Mars in the VIII and owns III & X so Mars signifies VIII & III and being placed in the star of Moon VIth also, Nothing about marriage as also in the sub of Kethu in lagna bhavam.

Then the anthra of Rahu from 20-7-90 to 8-12-90. Rahu is in the star of Moon in V owning VIth cusp. Rahu represents Mercury in VIII, gets VIIIth signification also it is the stellar strength of Rahu. The sub position is now discussed. It is in the sub of Moon itself. Moon is stationed in the star of Jupiter in IX owning II & XI.

Moon said emphatically that the marriage date will, on all probabilities, be fixed during this Anthra only and also added as Mercury owns Vth, in the star of Moon in V, Further strengthened by being placed in the sub of Saturn who acquires strength thro its star lord. Kethu who as Node represents Jupiter and thus II, XI, IX come into being. As such as he should get married in the Anthra of Rahu, he is also fortunate to get Progeny also before the end of Mercury bukthi.

All simply laughed as at the moment then, there was no horoscope of the girl on hand of consideration.

As the time moved, the girl was finalised, betrothal conducted on 28-5-90 in Moon anthra, marriage took place on 26-8-90 during Rahu anthra.

Twins born on 13-8-91 and K.P. was correct.

Good Luck

SUB - LORD SPEAKS

In continuation of my series, I like to discuss the horoscope of son Mr.Mani born on 28-11-1955 at 12.25 pm at Chennai 13.04/80.17.

Ayanamsa 23 13' 17'

He is now running the major period of Rahu from July 1977 to July 1995 and currently it is the bukthi of Venus from 8-2-89 to 8-2-92.

Venus is in IV and no planets in its stars and own III & X. So Venus is a full significator of IV, III & X fully.

Venus is in the star of Kethu in X. Hence, Venus again gets a full signification of X also. And so, Venus has the matters of IV, X. IV tells vehicular and house hold matters and comforts also thro them.

The full signification of IV for the bukthi lord tells some troubles in his occupational life. X also tells sale of propeties and at the same time lift in profession or service as well.

In this bukthi these are the mattes to happen, good of bad depend upon the strengths desired by Venus the bukthi lord thro the signification of its sub lord.

On these lines we will discuss the birth chart of Mr.Mani and it is as under.

Planet	Sub-lord	Planet	Sub-lord
Sun	Mars	Venus	Mars
Moon	Rahu	Saturn	Rahu
Mars	Moon	Rahu	Rahu
Mercury	Venus	Kethu	Rahu
Jupiter	Rahu

The matters told above will be detrimental to the native, if Venus is placed in the bad Sub and contra happens if planet is placed in a beneficial sub.

Here Venus is in the Sub of Mars and it is in its own star Chithirai in IInd bhavam, duly owning IX & IV.

So, the native should have good promotion in his occupation in terms of X, should enjoy vehicular & house hold comforts in terms of IV, sale of properties in a profitable way in terms of X, acquisition of new house hold properties in terms of IV.

It did happen.

The native had been promoted to an administrative status in his organisation and provided with a motor vehicle. He sold his old house and ground in west mambalam near Railway station, in turn got a new house in the same area plus hard cash to the tune of six lakhs, in terms of the sub lord Mars, a full significator of II & IV.

So the readers may well note the significations of Venus, being IV, III, X has given him a new house, a good promotion with a vehicle and heavy amount, in terms of the sublord Mars with full signification of II & IV.

I take up another birth chart of sow. Radha born on 23-12-59 at 12.10 noon at Chennai 12-14, 80 17.

Ayanamsa : 23-16-38.

The Horoscope is as under:

The native of this horoscope is a M.Com and got graduated in commerce as back as 1983 in her 23 years.

And she started her major Sun period from October 1983 and she remained completely unemployed all thro Sun period which ended by October 1989.

You may note that Sun is in X and Owns VI, of course sun is in the star of Venus in VIII owning III and VIII.

Let us look into the sub of Sun. It is also Venus & Venus is in the star of Jupiter in IX, owning I & X. There are two planets in X, and so the sublord Venus acquired the signification of I & IX only.

Though Sun, owning VI, placed in X, has been negated to give her service as it is placed in the sub of significator of I & IX.

But she got a good and permanent service during October 1989 in LIC suddenly How?

Let us discuss Moon period, which started on 13-10-89 of 10 years.

Moon is in IX and no planet in its stars, So Moon is a full significator of IX & V as it owns V and planets in V also.

Further Moon is placed in the star of Ketu in XII in Pisces and so it represents Jupiter thereby I & IX also.

Under stellar status Moon signifies IX, V, XII, I, IX. With such a stellar signification, which promises no service and in such a period of Moon she got fixed in LIC, whereas Sun in X owning VI could not do anything connected to service.

Then how Moon period was able to give her a good and permanent service soon after it began.

Moon is in the sub Rahu placed in VI (having no planet in Rahu star) and also the same Rahu tenented the star of Sun is X owning VI.

So thro sub, Moon acquires VI & X significations fully and this has given her good service and she continues there in LIC.

Let me again substantiate the strength of sub thro another birth chart of Mr.Bala Krishnan an enginner, born on 8-5-1960 at 3-23-55 at Chennai 13 04/8017.

Mr. Balakrishna is now running the major period of Jupiter from April 90 & it is for 16 yrs. Currently it is the bhukthi of Jupiter from April 90 to May 92.

Jupiter is in IIrd bhavam and it is in the star of Ketu in VI. This is the stellar status of Jupiter and it indicates a good service position of the native.

Actually Mr. Balakrishnan is unemployed and meets with failures only in his attempts to get fixed in job, especially in this Jupiter bukthi i.e. from April 90. The VII signification of Jupiter had given him a good material background only but not any service. "Why" is the question?

Kindly note the sublord of Jupiter and it is Saturn placed in IV. owning V & VI (Ketu in VI) (Mars is in the star of Saturn). And Saturn is in the star of Venus in VIII owning II & IX. (no planets in IX).

So, thro sub, Jupiter acquires the signification of VIII, V & IX which tells his present status of under employment and breaks to happy if he want to join any service. The balance signification of II of the sublord, gives him regular income thro his material background only.

One more birth chart, I desire to discuss how the planets have been strengthened under sublord significations, there by the pattern of the horoscope has been elevated.

The native of the horoscope is the son of my friend Mr.Ranganathan, Retd. Railway officer, born on 6-1-64 at 8.30 am at Bangalore 12.58/77.38.

Moon	Jupiter	Venus	Sun
Mars	Rahu	Saturn	Jupiter
Mercury	Mars	Rahu	Sun

Now he is running the major period of Rahu from Nov 76' to Nov 94'.

Rahu is in Vth bhavam, in its own star. So it is signifying V fully under stellar strength.

As node it stands for Mercury in XI owning VI & IX and so Rahu gains strength and matters shown by XI & VI are also to be given.

Still V & IX are detrimental for getting stability in professional life.

Now look into the sublord it is Sun and it is in XII. Sun has Mars in his star and so Sun does not signify XII.

Sun is in the star of Venus in lagna owning X (No planet in X) and V (Rahu is in V)

So, Rahu being in its own star in V & having acquired XI, VI & IX thro representation, Rahu becomes more powerful thro sub, as it acquires the signification of I & X.

In this period, he got graduated, passed B.Tech in 1985 and passed MBA during 1988.

He entered service during 1935 and in Venus bukthi, a very big bank in Bombay, duly drawing a salary to the tune of Rs.9000/- on date.

Venus bukthi is from 18-6-88 to 18-6-91. It is in the star of Moon in VIII.

VIII signification can never elevate one to such a height and such material status. As Venus is in the sub of Sun and acquires the signification of I & X, within bukthi he passed MBA and became very fortunate to draw such a huge amount as salary.

Though Rahu the Dasa lord, by representaion gets VI & X thro stellar strength Rahu is Vth significator only. But how the native is well employed in that the sub of Rahu i.e. Sun being the significator of I & X and so Rahu period is so bright.

Let me analyse the strength of entire planets in the birth chart, duly indicating the stellar and sublord significations.

Planets	Signification under stellar strength	Significations thro Sub Lord
Sun	I & X	II XI VI & IX
Moon	VII & VIII	II XI VI IX
Mars	XII & VIII	V
Mercury	I & X	XII & VIII
Jupiter	II III XVI IX	I & X
Venus	XIII & XII	I & X
Saturn	I II XII IV	II XI VI
Rahu	V XI VI IX	I & X
Ketu	XI I X	XII VIII

From the above analysis the student may note that except Mercury and Ketu, the entire planets get very good significations thro sub lord and so the boy is very fortunate so early as that at the age of 24 to clear such a huge amount as salary.

I predicted that even more status for him during his Jupiter period as Jupiter is getting very good signification thro stellar sub-position as well.

Summing up I may tell the readers and students of K.P. that the stellar signification tells the material and permanent strength that is visible, **but** the signification thro sub lord alters the situation in terms of the houses those **significations** are **connected**.

Good Luck

He wanted to know about his health condition of course he was magnanimous enough to indicate openly the disease he is suffering from.

Some are of opinion that the VIth cusp sublord tells the disease itself in natal chart. I feel it does not. It indicates the nature of the disease either chronic or otherwise he will suffer and its desity and affliction. Not the actual disease he has to suffer is indicated, as you could notice that natives suffer different kinds of deseases in different DASAS in terms of the significations attained by the Dasa lords and their connections to Various rasis.

For example, in the case of the horoscope of one DIG the VIth cusp sublord Rahu signifying IX posited in Gemini and the same Rahu in the sub of Saturn in IX in Gemini itself and Saturn in the star of Jupiter in XII in Virgo.

Of course Rahu the sublord of VIth cusp pionts to seriousness in disease and hospitalisation as XII and VI are connected to sublord Saturn being placed in the star of Jupiter in XII owning VI.

Coming to the matter under dicussion, the sixth cusp sublord Rahu is connected to Gemini and Virgo which stand for shoulders and intestines.

The officer had nothing to do with the above said regions, but has a serious type of disease of Heart, taken to USA for operation and well treated during April 90.

How heart is connected here?

Now, he is running Moon period since 2-2-90 and Moon is in Vrichikam in the star of Mercury in Leo and Moon is in the sub of Venus deposited in the star of Mercury in Leo again. Leo stands of Heart in the Xodiac.

Hence heart trouble during Moon bukthi in Moon period.

And also you may note, Xth cusp sublord tells profession. It does not finalise his actual profession. You might have noticed that one starts his profession as a PIMP and different Dasas, becomes owner of many houses and VIP also. So you must understand that cuspal sublord in a Natal chart does not tell both pimping and VIP status. The cuspal sublord tells how well he will flourish in his profession. The DASAS alter the nature and situation.

Reverting to our matter, this person is suffering from skin disease. I put it as PSOARIASIS (white patches) on Skin (Epidermis) from 1987.

Let us discuss how the present period of Venus from February 1984 has anything to do with this disease.

Venus is in VI owning II & IX. Jupiter is in Venus star Pooradam and so Venus is not a VIth significator. Then look into its star lord position. It is in the star of Jupiter in IV owning VII.

So finally under stellar status, Venus the current Dasa lord is not a VIth significator at all.

Then how is he suffering from a chronic type of disease during this period at Venus?

Now look into the sublord. It is Jupiter again. Jupiter is in star of Venus in VI now thro sublord status only Venus becomes the VIth significator.

Hence in this period this disease.

Here we can connect the nature is disease with the significators of DASA LORD VENUS.

Venus, as a rule, rules Epidermis of the skin. Venus is in Aquarius, owned by Saturn.

Saturn stands for Skin Allergy and skin.

And Aquarius stands for affliction related to blood combination in the system.

So I am of opinion that the native is suffering from Psoriasis due to the above significations and connections of Venus.

The current bukthi of Rahu is from April 91 for 3 years. Rahu is in XI and no planets in its stars. It is in the star of Mercury in VI owning lagna. So Rahu gets I & VI & XI significators.

And Rahu is in the sub of Ketu in V and no planet in its stars. So Rahu's signification of VI through stellar status tells his suffering and Vth signification thro sublord tells eradication of his disease and redemption from it, as he will get correct treatment only during Ketu anthra i.e. by March 1993 as Ketu is a full significator of V through stellar status and being in the sub of Mercury which is in IV in the star of Saturn owning V & VI.

So full 100% cure cannot be expected.

Let me take up another birth chart for discussion. The native Mr.Susi J.Patel born on 19-4-63 at 1-45 pm IST at Madras.

The above birth chart was brought to me for some classification by one KP follower in the vicinity to explain him the validity of Venus bukthi to bring about the marriage of the native, out of academic interest.

I worked out the horoscope as above and told him the following.

The period of Jupiter is on upto July 94. Jupiter is owning lagna and IV and is posited in the III, in the star of Saturn in II owning III.

And further Jupiter is in the sub of Sun in IVth Posited in the sub of Sun in IVth posited in the star of kethu in Ist bhavam representing Saturn in II owning III.

So Jupiter period does not possess negative significations for marital life thro sub.

He pointed out Venus bukthi, in which marriage has been celebrated.

Of course Venus owns VI & XI & is in the star of Jupiter owning lagna & IV. Except XI, other matters of VI & I & IV does not promote marital matters at all.

Then I looked into the sub lord of Venus. It is Rahu, posited in VII. As node it acquires the VII signification and it represents Moon in II having no planet in Moon star. Moon signifies II and being in the star of Rahu in VII. Moon gets VIIth signification also in full.

So Rahu attains the full signification of VII & II and in whose sub Venus the bukthi lord is situated and so marriage had taken place in this sub period.

One more chart, I take up for discussion. It is of one Mr. "P" a bank officer, born on 26-4-59 at 6-00 am IST at Vellore 12-55/79-11 Ayanamsa 23-16-38.

Before I discuss the events that had happened let me give an analysis on the significations of all the nine planets in the native's birth chart.

Stellar Signification	Planet Strength	Sub Lord
V, XII	Sun	IX, X, XI
XII	Moon	XII
III, I, VI	Mars	XII
IX, X, XI	Mercury	IV, VIII
VII, IX, X, XI	Jupiter	IX, X, XI
XII	Venus	XII
XII, II	Saturn	XII
VIII, IV	Rahu	IX, X, XI
XII	Kethu	XII

From the above breakup and assessment one can note that except Sun and Jupiter all the planets are having significations thro sub, most detrimental for matrimonial life.

In fag end of Jupiter Bhukthi the native got married around January/February 90 and soon after with the entry of Saturn bukthi on 28-2-91 First night for the couple ended in dispute and divorce case is on now.

The Signification of all planets thro sub is well connected to VI, X, XI, XII except Jupiter. He has a good Bank Service and material position of life is satisfactory. The same signification of VI, X & XII has given disturbance in marital portion of life.

Good Luck

SUB - LORD SPEAKS

I like to discuss the trigonal description of the 12 houses, before I take up the horoscopes for discussion regarding the sub-lord of planets.

The 12 houses are divided into 4 groups of TRIGONS.

Ist Trigon comprises of First-Fifth-Ninth houses. These reveal the self of the native.

IInd TRIGON includes Second-Sixth-Tenth which virtually stand for the material prospects of the native. Material trinity.

IIIrd TRIGON is comprised the communicative abilities of the person and his worldly connections and benefits there of.

The last & IVth TRIGON of houses are made up of Fourth-Eighth-Twelfth. These portray the human afflictions, tribulations, plots, intrigues and denoting disincarnation, fatal accidents & assaults on the person.

I have introduced these TRIGONS, as I am interested now to discuss birth charts, with some incidents & accidents and the IVth TRIGON will guide us in too often talks about the IVth TRIGON & Its impact in the matter of Accidents & operations, manhandlings etc in birth chart.

The boy is currently running the major period of Jupiter from 8-7-88 & is for 16 years.

The Jupiter bukthi was from 8-7-88 to 26-8-90.

Jupiter is in IX in the star of Venus in III & so signifies III & X fully. But Jupiter is in the sub of Mercury IV & no planet tenetns Mercury star. Hence Jupiter is well connected to IV thro sub.

As you will note that these are no planets in Jupiter star and so Jupiter get VIII the significations also under stellar status. So there is matter connected to VIII as it is stellar signification, as these are no planets in VIII also.

Thro sub Jupiter the bukthi lord is drawn to IV & as I indicated above. IV house constitutes the TRIGON and so the boy was involved a very serious accident on 4-10-89 and his right foot was seriously damaged.

And further, the sub lord Mercury having the IVth full significations, is in the star of Ketu in IV again and as node Kethu stands for Jupiter owning VIII and no planets in VIII and so signifies IV & VIII.

These have brought about the accident during Jupiter bukthi on 4-10-1989.

It was Venus anthra (from 27-7-89 to 3-12-89) Venus is in the star of Rahu in X and as node represents Mercury in IV. Venus is in the sub of Saturn in VII in the star of Mars in lagna owning IV. Saturn and Mars coming into the day bring about accidents in such a bukthi signifying accidents (IV & VII thro sub).

In this nativity, I am going to discuss, not about any accident, but he was accidentally dragged in to a scuffle. How? These was a serious quarrel between his friends and their opponents. He intervened and there was a pitched battle and in the he was heavily beaten up.

Let me astrologically discuss how it is happening.

Now he is running Sun bukthi (Rahu major period) from 9-1-91 to 3-12-91 and it happened in this bukthi only.

Look into Sun and it is placed in V, in the star of Jupiter in lagna bhavam and so signifies I & III. These stellar significations does not at all portray such sudden and undesirable matters and happenings. Then how it happened?

Look into the sublord of Sun. It is Mars, placed in VII and no planet tenants its stars, and so thro sub Sun acquires VIII significator in full and also Mars is in the star of Moon in VII. So sublord Mars a planet of quarrels and VIII for quarrels and danger of violence under unforeseen circumstances.

This VIP get married in this bukthi itself. Sun is in the star of Jupiter in lagna bhavam owning VI & III. This does not promote marital matters. But being in the sub of Mars, and Mars acquires VIIth signification. being placed in the star of Moon a deponter of VII, and himself having full signification of II & VII brought about the marriage too an 25-3-91 during his Sun bukthi.

From April 1943 to April 1961, he was running the major period of Rahu.

Rahu, the major period lord, is in the VIII in its own star and is in the sub of Saturn signifying II, being placed in the star of Ketu in II.

Rahu's signification of VII under stellar strength tells trials, accidents, tribulations, being the matter of VIII, one of the 3 houses of IVth Trigon. Thro sub, it signifies II and so alround control and good finance flow he enjoyed in that period.

It did happen and he had good income thro his landed properties, but he was involved in an accident during mercury bukthi in June 1951. (March 51 to Oct 53) affecting his right leg.

What is Mercury here?

It is in V and no planets in its stars and so fully signifies V (Moon is in VIII) Mercury is in the star of Jupiter in Lagnas owning II & XI. Hence Mercury under steller status signifies V, II & XI.

You look into the sub. It is Moon in VII owning VI and Moon is placed in the star of Mars in XII. So VIII & XIth is involved along with VI.

So sub is connected to the IVth Trigon and Mars and Xth mainly brought about the major accident. Here I invoke the above theory of IVth Trigon comprising IV, VII & XII, which stands for Human, affliction in general. So Mercury, being in the sub of Moon, is connected to Mars in XII. (Man for serious accidents and XII coupled with Mars tells injurious accidents). Mars being in XII (Capricorn) affected Right knee (leg).

Now I like to discuss the horoscope of Sri Suchit Gadakari of Thane (Bombay).

He was involved in an Accident while driving a two wheeler on 8-12-85.

Let us discuss the period on that date.

It was the major period of Rahu from July 1981 to July 1999 and the bukthi of Jupiter, when the accident occurred.

Jupiter bukthi was from 30-3-1984 to 24-8-1986.

Jupiter is in VI and owns VII, VII & IX. There is Venus in its stars. So under stells strength, Jupiter has no strong signification of VIII and it is a feeble one.

Jupiter is in the sub of Mercury duly placed in the star of Mars in XII.

Thro sub, Jupiter is connected to the fourth Trigon of IV, VII & XII and Mars also involved and sublord Mercury is Aquarius of Saturn.

So Mars, Saturn duly connected to these group of houses thro sub has brought about the accident.

I take up another birth chart of Srinathi Gayathri born on 13-7-1954 at 6-15 pm IST at Cuddalore 11 - 43/ 79 - 49'.

Ayanamsa being 23-12-27.

In this birth chart, the bukthinatha Ketu which brought about the accident, has nothing to do with VIII at all either by stellar strength or thro sub lord signification.

Only the IVth Trigon acted here.

Kethu bukthi (i.e. Venus major period) is from 27-10-90 to 27-12-91 and the accident occurred on 24-8-91 by a fall from a scooter, while in fast movement.

Ketu is in XII in the star of Jupiter in XII owning VI & X. So Ketu signifies XII, VI & X.

Ketu as node represents Mercury and so IV & XII also included.

Ketu is in the sub of Jupiter in XII & these are planets in Jupiter stars and so Ketu signifies VI only as Jupiter is in the star of Rahu in Dhanur i.e. VI. As node Rahu again represents XII & X.

So the matter of Ketu being IV, XII & VI is implemented thro its sublord significations being XII and VI, and the accident brought about.

In this, the students may please note that the sub lord getting the significations of the houses of the IV TRIGON can bring about the afflictions represented that group of houses IV, VIII & XII and that the native was also hospitalised in term of XII signification. Here, one can note the presence of VIII not found at all under signification either under stellar or thro sublord.

The Accident happened in the anthra of Saturn 22-8-91 to 28-10-91.

Discuss Saturn.

It is in IV & owns VII, V II & IX and in the star of Rahu in VI and as node represents Jupiter in XII.

As Saturn has no planets in its stars, and it fully signifies IV.

Summing up thro stellar strength, Saturn signifies IV, VIII & XII (IV TRIGON)

And it is in the sub of Jupiter in XII in the star of RAHU in VI and as node Rahu represents Jupiter in XII.

Hence thro Sub, XII & VI come into being. So the significations of IV, VIII & XII is implemented in full, by the sub lord signification of XII, one of the houses of the IVth TRIGON in the anthra of Saturn.

Now, I am discussing a Horary chart drawn by me regarding the delivery of a child.

When I took up the working of the Horary, Mohan was present.

Father of the girl was here and I told him that delivery will be normal and gave the date to be 14-10-91.

I told the above duly consulting the sub lord of the Vth cusp. You may note the sub lord is Mars and is in the XI in its own star, owning II, VI & VII. No planet in Mars star.

Mars is in the sub of Saturn in III & thus signifying XI, as Saturn is in the star of Sun in XI.

Here, though Mars and Saturn were involved, VIII signification was no where to be found.

So I finally told the father that delivery would be very normal.

Now, Mohan intervened seriously. His contention was that Vth cusp sub lord being Mars itself in XI in its own star and no planets in its star. So Vth has the full control of Mars, a planet for cuts and surgery.

Further Mars in the sub of Saturn, adds fuel to fire.

Further Saturn has no Planets in its stars and so signifies IV and no planets in IV.

IV signification thro sub, is an indication of surgical matter in terms of its being one of the 3 houses of the IV TRIGON comprising of Fourth-Eighth-Twelfth and he asserted that delivery is not normal and there will be surgical matter.

On 2-2-91 the father of the girl intimated me that there was caesarean operation conducted and the child was taken out on 14-10-91 as predicted by me using RPs.

Having the above examples in views, the students and followers of KP are requested to look into IV , VII & XII also while delaing with accidents, operation matters and manhandlings as well.

I have used the above TRIGONS duly consulting Book A & Z horoscope Maker and Delineator by LLEWELLYN GEORGE.

Good luck
